

Contents

1. Introduction	1
2. Jets in e^+e^- Annihilations	4
2.1 Evidence for Jets	5
2.2 Inclusive Distributions	8
2.3 Scaling Violations at High Energies	10
3. Jets in Longitudinal Phase Space Models	15
3.1 The Uncorrelated Jet Model (UJM)	15
3.2 The Approach to Scaling	19
3.3 The UJM and Short Range Correlations	22
3.4 Summary	24
4. Jets and Parton Models	25
4.1 Jets from Quark Confinement	26
4.2 Space-Time Development of Quark Jets	27
4.3 An Algorithm for Simulation of Quark Jets	35
4.4 Properties of Quark Jets	39
4.5 Summary	45
5. Parton Jets and QCD	46
5.1 Scale Breaking in QCD	47
5.2 Preconfinement	55
5.3 Production of Heavy Hadrons	59
5.4 Transverse Momentum Structure of Parton Jets	61
5.5 Gluon Jets	63
5.6 Quantitative Test of QCD Predictions for Jets in e^+e^- Reactions ..	67
5.7 Summary	68

6. The Fragmentation of Parton Systems	71
6.1 Deep Inelastic Lepton-Nucleon Scattering	71
6.2 Environmental Independence and Factorization	76
6.3 Jet Universality	88
6.4 Spectator Fragmentation	90
6.5 The Quark Recombination Model (QRM)	95
6.6 Dimensional Counting Rules	102
6.7 The Three Gluon Decay of the T	108
6.8 Summary	119
7. Jets in Hadron-Hadron Interactions with Particles of Large Transverse Momentum	121
7.1 Parton-Parton Scattering	125
7.1.1 The QCD Approach	130
7.1.2 Parton Transverse Momentum	134
7.1.3 Constituent Interchange Model (CIM)	136
7.2 General Characteristics of High p_{\perp} Events	138
7.2.1 Particle and Beam Ratios	138
7.2.2 Structure of Large p_{\perp} Events	141
7.3 The Jets of Large p_{\perp}	148
7.3.1 Longitudinal Distributions of Particles in Jets	148
7.3.2 Transverse Properties of Jets and Five-Jet Final States ..	155
7.3.3 Quantum-Number Correlations	159
7.4 Spectator Fragmentation	166
7.4.1 General Characteristics of the Spectator	167
7.4.2 Quantum-Number Correlations	171
7.4.3 Spectator Fragmentation Functions	172
7.4.4 Particle Correlations in Spectator Jets	177
7.5 Summary	179
8. Hadron-Hadron Interactions at Low p_{\perp}	180
8.1 Longitudinal Fragmentation Spectra	181
9. Summary	192
References	195
Subject Index	203
Classified Index	211
