

Contents

Biographical Note	1
Limits on Like-Sign Dilepton Production in Neutrino Interactions By C. Baltay (With 1 Figure)	7
Electroproduction at Very Small Values of the Scaling Variable By J.D. Bjorken (With 3 Figures)	17
Space Resolution of a Large Time Projection Chamber By W. Blum, J. May, and L. Rolandi (With 11 Figures)	31
Forecast on the Future of Gaseous Detectors By G. Charpak (With 5 Figures)	41
The Involvement of Scientists in National Security Issues By S.D. Drell	49
Neutral Currents. By F. Dydak and C. Geweniger (With 12 Figures)	71
How Well Do We Know the Parton Distributions in the Nucleon from Deep Inelastic Scattering Experiments? By F. Eisele and R. Turlay (With 6 Figures)	95
Physics at LEP. By J. Ellis (With 6 Figures)	113
Future Prospects for Elementary Particle Physics: High and Low Energy Probes. By M.K. Gaillard	123
Meson Masses in a Quark Model with Self-Consistent Pion Couplings By E.M. Henley, R. Su, M. Li, and S. Kuyucak (With 4 Figures)	139
Quark and Lepton Mixing in Weak Interactions By K. Kleinknecht (With 4 Figures)	149
Physics with the Tevatron. By L.M. Lederman (With 4 Figures)	165
Quantum Numbers of the Gluon. By T.D. Lee (With 1 Figure)	185
The Physics in the Z^0 Energy Regime By U. Nauenberg (With 16 Figures)	191

Technical Limits on Colliders for High Energy Physics By W.K.H. Panofsky	225
Experimental Observation of Some of the Properties of the Intermediate Vector Bosons. By C. Rubbia (With 16 Figures)	237
Reminiscences of Columbia. By N.P. Samios	267
Jack Steinberger – The Best Teacher I Have Known By M. Schwartz	269
J. Steinberger and the Early Days of Pion Physics. By G.C. Wick	275
Is KNO Scaling Valid for Two Jet Events in e^+e^- Collisions? By C.N. Yang (With 2 Figures)	279
Bibliography of Research Published in Journals	285
Index of Contributors	291
