

## Contents

*Andreas Otto*

**Experimental Investigation of Surface Polaritons on Plane Interfaces** 1

*Herbert Weiss*

**Utility and Futility of Semiconductor Effects** 39

*Donald N. Langenberg*

**Characteristic Times in Superconductors** 67

*Peter Ehrhart, Heinz-Günter Haubold, and Werner Schilling*

**Investigation of Point Defects and Their Agglomerates in Irradiated Metals by Diffuse X-Ray Scattering** 87

*Ronald S. Hawke*

**Experiments on Hydrogen at Megabar Pressures; Metallic Hydrogen** 111

*Peter R. Selway, A. Richard Goodwin, and G. H. B. Thompson*

**Heterostructure Injection Lasers** 119

*Horst Fischer*

**Physics and Technology of Photovoltaic Solar Energy Conversion** 153

*Ludwig Genzel*

**Aspects of the Physics of Microcrystals** 183

*Wolfgang Gläser*

**Experimental Studies of the Electron-Phonon Interaction in One-Dimensional Conducting Systems** 205
