

Contents

Terms and Definitions	1	Magnesium Alloys	425
Metallographic Techniques	21	Nickel and Nickel-Copper Alloys	435
Sectioning	23	Refractory Metals and Alloys	439
Mounting of Specimens	28	Rhenium and Rhenium-Bearing Alloys	447
Mechanical Grinding, Abrasion, and Polishing	33	Tin and Tin Alloys	449
Electrolytic Polishing	48	Titanium and Titanium Alloys	458
Etching	57	Uranium and Uranium Alloys	476
Appendix I: Magnetic Etching	63	Zinc and Zinc Alloys	488
Appendix II: Procedures and Precautions for the Preparation and Handling of Etchants	66	Zirconium and Hafnium and Their Alloys	497
Optical Microscopy	71	Powder Metallurgy Materials	503
Scanning Electron Microscopy	89	Magnetic and Electrical Materials	531
Transmission Electron Microscopy	103	Electrical Contact Materials	550
Quantitative Metallography	123	Sleeve Bearing Materials	565
Color Metallography	135	Weldments	577
Introduction	135	Fiber Composite Materials	587
Color Etching	139	Structures	599
Anodizing	142	Introduction	601
Potentiostatic Etching	143	Solidification Structures of Pure Metals	607
Interference Films by Vacuum Deposition	147	Solidification Structures of Solid Solutions	611
Interference Films by Reactive Sputtering	148	Solidification Structures of Eutectic Alloys	618
Differential Interference Contrast	150	Solidification Structures of Steel	623
Electronic Image Analysis	152	Solidification Structures of Aluminum Alloy Ingots	629
Metallographic Techniques and Microstructures:		Solidification Structures of Copper Alloy Ingots	637
Specific Metals and Alloys	163	Structures Resulting From Precipitation From Solid Solution	646
Carbon and Alloy Steels	165	Spinodal Structures	652
Coated Sheet Steel	197	Massive Transformation Structures	655
Plate Steels	202	Eutectoid Structures	658
Steel Tubular Products	210	Bainitic Structures	662
Case Hardening Steel	217	Martensitic Structures	668
Carbon and Low-Alloy Steel Castings	230	Ferrous Martensitic Structures	668
Austenitic Manganese Steel Castings	237	Nonferrous Martensitic Structures	672
Cast Irons	242	Peritectic Structures	675
Tool Steels	256	Ordered Structures	681
Cemented Carbides	273	Plastic Deformation Structures	684
Wrought Stainless Steels	279	Recovery, Recrystallization, and Grain-Growth Structures	692
Stainless Steel Casting Alloys	297	Textured Structures	700
Wrought Heat-Resistant Alloys	305	Crystal Structure of Metals	706
Heat-Resistant Casting Alloys	330	Metric Conversion Guide	721
Aluminum Alloys	351	Abbreviations and Symbols	724
Beryllium	389	Index	726
Beryllium-Copper and Beryllium-Nickel Alloys	392		
Copper and Copper Alloys	399		
Lead and Lead Alloys	415
