

CONTENTS

Preface	iii
Contributors	v
Contents of Part B	ix
unit 1 The Solar Resource	1
1 Solar Energy and the Biosphere <i>D. S. Halacy, Jr.</i>	3
2 Extraterrestrial Electromagnetic Solar Radiation <i>Harriet H. Malitson and Donald F. Heath</i>	17
3 Solar Geometry and Time <i>George E. Bush and Leland M. Richards</i>	39
4 The Terrestrial Solar Spectrum <i>K. W. Böer</i>	65
5 Terrestrial Solar Radiation Availability <i>Raymond J. Bahm</i>	89
6 New U.S. Network for Solar Radiation Measurements <i>Daniel H. Lufkin</i>	167
7 Instrumentation for Solar Radiation Measurements <i>Dean Anson</i>	173
8 Infrared Radiation Measurements <i>Dean Anson</i>	199
unit 2 Solar Thermal Collectors	215
9 Flat-Plate and Nonconcentrating Collectors <i>George O. G. Löf</i>	217
10 Concentrating Collectors <i>Ari Rabl</i>	257
11 Nonconvective Salt-Gradient Solar Ponds <i>Carl E. Nielsen</i>	345
12 Shallow Solar Ponds <i>A. F. Clark and W. C. Dickinson</i>	377
13 Fundamental Materials Considerations for Solar Collectors <i>Gene A. Zerlaut</i>	403
14 Outdoor Testing of Solar Materials and Solar Collectors <i>Gene A. Zerlaut</i>	439
15 Standard Procedures for Collector Performance Testing <i>James E. Hill</i>	457
unit 3 Photovoltaics	481
16 Principles of Photovoltaic Conversion <i>Charles E. Backus</i>	483
17 Solar Cell Fabrication <i>Martin Wolf</i>	517
18 Photovoltaic Materials <i>Joseph J. Loferski</i>	543

unit 4 Bioconversion	561
19 Biological Energy Conversion: The Photosynthetic Process <i>Raymond L. Ward</i>	563
20 Energy Farming <i>Robert Hodam and Virginia Lew</i>	589
unit 5 Wind Energy	615
21 The Wind Resource and Siting Requirements <i>Joseph B. Knox</i>	617
22 Characteristics and Uses of Wind Machines <i>Marshal F. Merriam</i>	665
unit 6 Solar Energy Storage Systems	719
23 Low-Temperature Sensible Heat Storage <i>Donald W. Connor</i>	721
24 High-Temperature Sensible Heat Storage <i>Robert H. Turner</i>	765
25 Phase-Change Storage Systems <i>Philomena G. Grodzka</i>	795
26 Thermochemical Storage Systems <i>Raymond W. Mar and T. Tazwell Bramlette</i>	811
Appendix A Conversion of Units	841
Appendix B Solar Altitude, Solar Azimuth, and Solar Incidence Angle for Horizontal and South-facing Inclined Surfaces, for Latitudes of 24°, 32°, 40°, and 48°	849
Appendix C R-Values and U-Values for Materials, Air Films, and Air Spaces	859
Selected Tabular and Graphic Data Included in Handbook	865
Index	869
