

CONTENTS

<i>Preface</i>	v
SECTION 1—INTRODUCTION	1-1
SECTION 2—INSTRUMENTATION AND CONTROL FUNDAMENTALS	2-1
Symbols and Notations.....	2-1
Automatic-control Terminology.....	2-11
Fundamentals of Measurement and Control.....	2-13
Modes of Automatic Control.....	2-23
Block-diagram Analysis	2-33
SECTION 3—MEASUREMENT OF PRESSURE AND DRAFT.	3-1
Measurement of Pressure and Draft.....	3-1
Manometer Tables	3-10
Pressure-instrument Specification	3-18
Calibration of Pressure Instruments	3-21
Installation of Pressure Instruments.....	3-30
SECTION 4—TEMPERATURE MEASUREMENT.....	4-1
Temperature-measuring Theory	4-1
Filled-system Thermometers	4-8
Bimetal Thermometers.....	4-25
Industrial Liquid-in-glass Thermometers	4-29
Thermocouple Pyrometers.....	4-31
Superheater-tube-temperature Measurements.....	4-44
Resistance Thermometers.....	4-50
Radiation Pyrometers.....	4-56
Thermistors	4-58
Temperature Measurement by Color	4-61
Temperature Measurement by Chemical Signal.....	4-61
Temperature Instrument Specification	4-63
SECTION 5—MEASUREMENT OF FLOW.....	5-1
Primary Elements for Differential-pressure Flow Meters.....	5-1
Selecting the Diameter Ratio, Differential Range, and Piping Layout	5-6
Mechanical and Electric Meter Bodies.....	5-28
Installation of Differential-pressure Flow Meters.....	5-40

Variable-area Flow Meters	5-44
Positive-displacement Flow Meters.....	5-49
Open-channel Flow Measurement.....	5-56
SECTION 6—MEASUREMENT AND CONTROL OF LIQUID LEVEL	6-1
Fundamental Principles.....	6-1
Ball-float Devices.....	6-4
Displacement-type Level Controls	6-13
Hydrostatic-head Devices	6-18
Electric- and Pneumatic-level Transmission	6-25
Electric- and Magnetic-type Level-limit Devices.....	6-26
Boiler-water-level Indicators	6-28
Level Instrument Specifications.....	6-35
SECTION 7—FINAL CONTROL ELEMENTS.....	7-1
Valve Bodies and Inner Valves.....	7-2
Control-valve Construction Details.....	7-22
Power Operators.....	7-27
Electric Actuators.....	7-40
Direct-acting Control Valves.....	7-56
Control-valve Sizing.....	7-62
Control-valve Specifications.....	7-72
SECTION 8—MEASUREMENT AND CONTROL OF pH AND CONDUCTIVITY	8-1
Chemistry of Electrochemical Measurements.....	8-1
Continuous-conductivity Measurement.....	8-20
Applications of Conductivity Measurement.....	8-33
SECTION 9—BOILER INSTRUMENTATION AND CONTROL SYSTEMS	9-1
Feedwater Regulation	9-4
Boiler-feed-pump-recirculation Control.....	9-20
Combustion Controls	9-23
Flue-gas Analysis.....	9-80
Oxygen Analysis.....	9-93
Combustion Safeguards.....	9-106
Smoke-density Recorders.....	9-119
Steam-temperature Control.....	9-124
Typical Boiler-control Installations.....	9-134
SECTION 10—STEAM-PRESSURE REDUCING AND DESUPERHEATING	10-1
SECTION 11—STEAM-TURBINE INSTRUMENTATION AND CONTROL	11-1
Turbine Governors.....	11-1

Turbine-supervisory Instruments.....	11-16
SECTION 12—DIESEL-ENGINE GOVERNING.....	12-1
SECTION 13—CONTROL OF HEATING, AIR-CONDITION- ING, AND REFRIGERATION SYSTEMS.....	13-1
Control Adapted to Equipment.....	13-1
Modulating or Two-position Control.....	13-4
Inside-thermostat Control.....	13-5
Outdoor-thermostat Control.....	13-8
Individual-room Control.....	13-13
Control of Unit Heaters and Unit Ventilators.....	13-13
Unit-heater Control Methods.....	13-14
Unit Ventilators.....	13-19
Control of Commercial Central-fan Heating Systems.....	13-25
Tempering Systems With Pull-through Fans.....	13-26
Tempering System With Blow-through Fan.....	13-30
Blast Heating Systems.....	13-30
Thermostat Location.....	13-31
Outdoor-air Control.....	13-31
Blow-through Systems.....	13-36
Preheater Outdoor-air Control.....	13-37
Winter Humidification.....	13-39
Distribution and Zone Control.....	13-43
Control of Commercial Central-fan Cooling Systems.....	13-48
Control of Systems Using Cold-water Cooling Coils.....	13-50
Control of Direct-expansion Cooling Systems.....	13-53
Control of Air-washer Systems.....	13-59
Dehumidifying Systems.....	13-60
Applications Requiring Reheat.....	13-62
Control of Outdoor-air Dampers.....	13-64
Summer-winter Systems.....	13-66
Control of Refrigeration.....	13-68
Control Requirements.....	13-71
Capacity Control.....	13-72
Control of Distribution.....	13-79

Index follows Section 13.
