0 Notations, constants, and general relations

H. SCHOPPER, DESY, Hamburg, Germany

0.1 Notation	1
0.1.1 Kinematical variables	1
0.1.2 Cross sections	2
0.1.3 Polarization	2
0.2 Relativistic kinematics	2
0.2.1 Relativistic invariants	2
0.2.2 Lorentz transformations	3
0.2.3 Transformation of cross sections	4
0.3 Diffraction scattering	5
0.4 Optical theorem	5
0.5 Particle properties	6
0.6 Units	6
0.7 List of abbreviations	6

1 Nucleon nucleon scattering

J. BYSTRICKY, SACLAY, Gif-sur-Yvette, France, P. CARLSON, University of Stockholm, Sweden,
C. LECHANNOINE, SACLAY, Gif-sur-Yvette, France, F. LEHAR, SACLAY, Gif-sur-Yvette, France,
F. MÖNNIG, Kernforschungszentrum, Karlsruhe, Germany, K.R. SCHUBERT, University of Heidelberg, Germany

1.1 Total cross sections	7
1.1.1 Total and integrated cross sections for pp, pd and dd scattering	7
1.1.1.1 Total cross sections for pp, pd and dd scattering (K.R. SCHUBERT)	7
1.1.1.1.0 Introduction	7
1.1.1.1.1 Table of total pp cross sections	9
1.1.1.1.2 Table of total pd cross sections	11
1.1.1.1.3 Table of total dd cross sections	12
References: see 1.2.3.4	
1.1.1.2 Integrated cross sections for elastic pp, pd and dd scattering and for inelastic pp scattering (K.R. SCHUBERT)	12
1.1.1.2.0 Introduction	12
1.1.1.2.1 Table of integrated elastic pp cross sections	15
1.1.1.2.2 Table of integrated elastic pd cross sections	16
1.1.1.2.3 Table of integrated elastic dd cross sections	16
1.1.1.2.4 Table of integrated inelastic pp cross sections	17
References: see 1.2.3.4	
1.1.1.3 Topological cross sections for pp interactions (J. BYSTRICKY, F. LEHAR)	18
1.1.1.4 Total cross sections for individual channels in pp interactions (J. BYSTRICKY, F. LEHAR) .	24
1.1.1.4.1 Channels involving pions	24
1.1.1.4.2 Hyperon production	32
1.1.1.5 Spin dependent total cross sections in pp interactions (J. BYSTRICKY, F. LEHAR)	38
1.1.1.6 References for 1.1.1.3, 1.1.1.4, and 1.1.1.5 (J. BYSTRICKY, F. LEHAR)	39

1.1.2 Total and integrated cross sections for neutrons on protons and nuclei	42
1.1.2.1 Tables of total np cross sections for low energies ($T_1 < 100$ MeV)	42
References: see 1.1.2.3.4 (J. BYSTRICKY, F. LEHAR)	
1.1.2.2 Total cross sections of neutrons on protons and nuclei at high energies ($T_1 > 26$ GeV) (F. MÖNNIG)	69
1.1.2.2.1 General remarks	69
1.1.2.2.2 Tables of total np and n nucleus cross sections at high energies	71
1.1.2.2.3 References for 1.1.2.2	74
1.1.2.3 Total cross sections for special channels in np interactions (J. BYSTRICKY, F. LEHAR)	74
1.1.2.3.1 Integrated cross sections of elastic and inelastic np scattering	75
1.1.2.3.2 Topological np cross sections	75
1.1.2.3.3 Total np cross sections for individual channels	77
1.1.2.3.4 References for 1.1.2.1 and 1.1.2.3	82
1.1.2.4 Total cross sections for nn scattering (J. BYSTRICKY, F. LEHAR)	83, 739
1.1.2.5 References for 1.1.2.4 (J. BYSTRICKY, F. LEHAR)	84
1.1.3 Total cross sections of antiprotons on protons and deuterons (P. CARLSON)	85
1.1.3.1 Introduction	85
1.1.3.2 Tables of total $\bar{p}p$, $\bar{p}d$, and $\bar{p}n$ cross sections	86
1.1.3.3 References for 1.1.3	87
1.2 Differential cross sections and polarization parameters for elastic pp, pd and dd scattering	88
1.2.1 Differential cross sections for elastic pp scattering at low momenta ($p_1^* \lesssim 1$ GeV/c)	88
1.2.1.1 Table of differential cross sections for elastic pp scattering at low momenta (J. BYSTRICKY, F. LEHAR)	88
1.2.1.2 References for 1.2.1.1 (J. BYSTRICKY, F. LEHAR)	185
1.2.1.3 Locally energy dependent phase shift analyses of elastic pp, np and pn scattering in the energy region 10–750 MeV (J. BYSTRICKY, C. LECHANOINE, F. LEHAR)	186
1.2.1.3.1 Introduction	186
1.2.1.3.2 Method	187
1.2.1.3.3 Results	188
1.2.1.3.4 Conclusions	188
1.2.1.3.5 References	188
1.2.1.3.6 Figures	189
1.2.2 Differential cross sections for elastic pp scattering at high momenta (K. R. SCHUBERT)	216
1.2.2.0 Survey	216
1.2.2.1 Introduction	223
1.2.2.1.1 General remarks	223
1.2.2.1.2 Coulomb interference region	223
1.2.2.1.3 Diffractive region	227
1.2.2.1.4 Selection procedure for ISR cross sections	230
1.2.2.2 Table of differential cross sections for elastic pp scattering at high momenta	231
References: see 1.2.3.4	
1.2.3 Differential cross sections for elastic pd and dd scattering (K. R. SCHUBERT)	287
1.2.3.0 Survey	287
1.2.3.1 Introduction	289
1.2.3.2 Table of differential cross sections for elastic pd scattering	292
1.2.3.3 Table of differential cross sections for elastic dd scattering	322
1.2.3.4 References for 1.1.1.1, 1.1.1.2, 1.2.2, 1.2.3	324
1.2.4 Polarization parameters for elastic pp scattering (J. BYSTRICKY, F. LEHAR)	328
1.2.4.1 Comment to the spin dependent quantities for elastic pp scattering	328
1.2.4.2 Polarization parameters	329
1.2.4.3 Wolfenstein parameter	382
1.2.4.4 Spin correlation parameter	400
1.2.4.5 References for 1.2.4	417
1.3 Differential cross sections and polarization parameters for np elastic and charge exchange scattering .	420
1.3.0 Survey (F. MÖNNIG)	420
1.3.1 Tables of differential elastic np cross sections (including charge exchange scattering) at low energies .	425
1.3.1.1 Tables (J. BYSTRICKY, F. LEHAR)	426

1.3.1.2 References for 1.3.1.1	568
1.3.1.3 Locally energy dependent phase shift analysis of elastic np and pn scattering in the energy region 10–750 MeV (J. BYSTRICKY, C. LECHANINE, F. LEHAR)	569
For introduction, methods, results, conclusions, references see 1.2.1.3.1–1.2.1.3.5	
1.3.1.3.6 Figures	569
1.3.2 Differential elastic np cross sections at high energies (F. MÖNNIG)	601
1.3.2.1 General remarks	601
1.3.2.2 Tables of differential elastic np cross sections at high energies	604
1.3.2.3 References for 1.3.2	624
1.3.3 Differential np charge exchange cross sections at high energies (F. MÖNNIG)	624
1.3.3.0 Survey	624
1.3.3.1 General remarks	626
1.3.3.2 Tables of differential np charge exchange cross sections at high energies	628
1.3.3.3 References for 1.3.3	643
1.3.4 Polarization parameters of elastic np scattering (J. BYSTRICKY, F. LEHAR)	644
1.3.4.1 Polarization parameters	644
1.3.4.2 Wolfenstein parameters	663
1.3.4.3 Spin correlations parameter	673
1.3.4.4 References for 1.3.4	673
1.4 Differential cross sections and polarization of elastic $\bar{p}p$ scattering (P. CARLSON)	675
1.4.0 Survey	675
1.4.1 Introduction	676
1.4.2 General features of the data	676
1.4.3 Table of differential cross sections for elastic $\bar{p}p$ scattering	678
1.4.4 Table of polarization parameters for elastic $\bar{p}p$ scattering	687
1.4.5 References for 1.4	687

2 Kaon nucleon elastic and charge exchange scattering

P. CARLSON, Universität of Stockholm, Sweden

2.0 Survey of data	689
2.1 Introduction	689
2.1.1 General remarks	689
2.1.2 General features of the data	693
2.2 Tables of total cross sections of $K^\pm p$ and $K^\pm d$ scattering	698
2.2.1 Total $K^+ p$ cross sections	698
2.2.2 Total $K^+ d$ cross sections	698
2.2.3 Total $K^+ n$ cross sections	698
2.2.4 Total $K^- p$ cross sections	699
2.2.5 Total $K^- d$ cross sections	699
2.2.6 Total $K^- n$ cross sections	699
2.3 Tables of differential cross sections for elastic $K^\pm p$ scattering	700
2.3.1 Differential elastic $K^+ p$ cross sections	700
2.3.2 Differential elastic $K^- p$ cross sections	713
2.4 Tables of differential cross sections for charge exchange scattering	729
2.4.1 Differential $K^+ n \rightarrow K^0 p$ charge exchange cross sections	729
2.4.2 Differential $K^- p \rightarrow \bar{K}^0 n$ charge exchange cross sections	730
2.5 Tables of polarizations in elastic $K^\pm p$ scattering	733
2.5.1 Polarization in elastic $K^+ p$ scattering	733
2.5.2 Polarization in elastic $K^- p$ scattering	733
2.6 References for 2	734
