Magnetic properties of free radicals Subvolume d1: Nitroxide radicals. Part 1

General introduction

H. FISCHER, Physikalisch-Chemisches Institut der Universität Zürich, Switzerland

A Definition and substances	1
B Magnetic properties	1
C Arrangements of the tables	3
D Monographs	3

6 Nitroxides

A. R. FORRESTER, Department of Chemistry, University of Aberdeen, Old Aberdeen, U.K.

6.1 Introduction	5
6.1.1 Classification	5
6.1.2 Summary table	6
6.1.3 Reviews on nitroxide radicals	6
6.2 Nitroxides formed by trapping with nitrosoalkanes	8
6.2.1 2-Methyl-2-nitrosopropane (MNP)	8
6.2.1.1 Radicals derived from amino acids and peptides	8
6.2.1.1.1 Primary alkyl radicals with a carbonyl substituent	8
6.2.1.1.2 Primary alkyl radicals with an amino substituent	12
6.2.1.1.3 Primary alkyl radicals with neither carbonyl nor amino substituent	15
6.2.1.1.4 Secondary alkyl radicals with a carbonyl and an amino substituent	21
6.2.1.1.5 Secondary alkyl radicals with a carbonyl substituent	25
6.2.1.1.6 Secondary alkyl radicals with an amino substituent	44
6.2.1.1.7 Secondary alkyl radicals with neither carbonyl nor amino substituents	63
6.2.1.1.8 Tertiary alkyl radicals with a carbonyl and an amino substituent	67
6.2.1.1.9 Tertiary alkyl radicals with an amino substituent	71
6.2.1.1.10 Tertiary alkyl radicals with neither a carbonyl nor an amino substituent	72
6.2.1.1.11 Aminyl radicals	74
6.2.1.1.12 Thiyil radicals	75
6.2.1.2 Radicals derived from nucleosides and nucleic acid bases	76
6.2.1.2.1 Primary alkyl radicals	76
6.2.1.2.2 Secondary alkyl radicals	80
6.2.1.2.3 Tertiary alkyl radicals	94
6.2.1.2.4 Vinyl radicals	100
6.2.1.2.5 Aminyl, amidyl and imidyl radicals	100
6.2.1.3 Radicals derived from carbohydrates and their derivatives	104
6.2.1.4 Hydrogen atoms	110
6.2.1.5 Primary alkyl radicals	111
6.2.1.5.1 Primary alkyl radicals with a β -trigonal carbon substituent	111
6.2.1.5.2 Primary alkyl radicals with a β -vinyl substituent	123

6.2.1.5.3 Primary alkyl radicals with a β -aryl substituent	124
6.2.1.5.4 Primary alkyl radicals with a β -carbonyl substituent	126
6.2.1.5.5 Primary alkyl radicals with a β -amino substituent	127
6.2.1.5.6 Primary alkyl radicals with a β -oxy or other substituent	130
6.2.1.6 Secondary alkyl radicals	132
6.2.1.6.1 Secondary alkyl radicals with a β -trigonal carbon substituent	132
6.2.1.6.2 Secondary alkyl radicals with one or more β -carbonyl substituents	140
6.2.1.6.3 Secondary alkyl radicals with a β -amino substituent	145
6.2.1.6.4 Secondary alkyl radicals with a β -oxy substituent	148
6.2.1.6.5 Secondary alkyl radicals with other β -substituents	149
6.2.1.7 Tertiary alkyl radicals	154
6.2.1.7.1 Tertiary alkyl radicals with a β -trigonal carbon substituent	154
6.2.1.7.2 Tertiary alkyl radicals with a β -carbonyl, imino, thiocarbonyl or cyano substituent	157
6.2.1.7.3 Tertiary alkyl radicals with one or more β -oxy, amino, thio or halo substituents	159
6.2.1.8 Polyhaloalkyl radicals	162
6.2.1.9 Substituted vinyl radicals	165
6.2.1.10 Aryl radicals	168
6.2.1.11 Imidoyl radicals	175
6.2.1.12 Cyano radicals	177
6.2.1.13 Acyl radicals	177
6.2.1.14 Aminyl radicals	182
6.2.1.15 Oxyl radicals	184
6.2.1.16 Thiyl radicals	190
6.2.1.17 Sulfonyl and related radicals	194
6.2.1.18 Boron-centred radicals	198
6.2.1.19 Phosphorus-centred radicals	200
6.2.1.20 Arsenic-centred radicals	201
6.2.1.21 Silyl radicals	201
6.2.1.22 Chromium-centred radicals	202
6.2.1.23 Manganese-centred radicals	202
6.2.1.24 Iron-centred radicals	202
6.2.1.25 Other metal-centred radicals	203
6.2.2 2-Methyl-2-nitrosobutanone	203
6.2.3 Nitrosotryptcene	204
6.2.4 Trifluoronitrosomethane	206
6.2.4.1 Primary alkyl radicals	206
6.2.4.2 Secondary alkyl radicals	207
6.2.4.3 Tertiary alkyl radicals	209
6.2.4.4 Polyhaloalkyl radicals	210
6.2.4.5 Alkoxy radicals	211
6.3 Nitroxides formed by trapping with nitrosoarenes, nitrosoheterocycles and nitroarenes	212
6.3.1 Nitrosobenzene and nitrobenzene	212
6.3.1.1 Primary alkyl radicals	212
6.3.1.2 Secondary alkyl radicals	216
6.3.1.3 Tertiary alkyl radicals	221
6.3.1.4 Vinyl radicals	223
6.3.1.5 Aryl radicals	224
6.3.1.6 Imidoyl radicals	226
6.3.1.7 Acyl radicals	227
6.3.1.8 Aminyl and iminyl radicals	228
6.3.1.9 Alkoxy radicals	230
6.3.1.10 Thiyl radicals	232
6.3.1.11 Sulfonyl radicals	232
6.3.1.12 Metal- and other-centred radicals	233

6.3.2	2,6-Dichloronitrosobenzene	233
6.3.2.1	Primary alkyl radicals	233
6.3.2.2	Secondary alkyl radicals	235
6.3.2.3	Tertiary alkyl radicals	236
6.3.2.4	Alkoxy radicals	237
6.3.3	2,4,6-Trichloronitrosobenzene	238
6.3.3.1	Primary alkyl radicals	238
6.3.3.2	Secondary alkyl radicals	243
6.3.3.3	Tertiary alkyl radicals	249
6.3.3.4	Other radicals	251
6.3.4	2,4,6-Tribromonitrosobenzene	251
6.3.4.1	Primary alkyl radicals	251
6.3.4.2	Secondary alkyl radicals	252
6.3.4.3	Tertiary alkyl radicals	254
6.3.4.4	Aryl radicals	255
6.3.5	2,6-Dibromobenzene-4-sulfonate	255
6.3.5.1	Primary alkyl radicals	255
6.3.5.2	Secondary alkyl radicals	258
6.3.5.3	Tertiary alkyl radicals	259
6.3.5.4	Other radicals	260
6.3.6	2,4,6-Trimethylnitrosobenzene and 2,4,6-trimethylnitrobenzene	262
6.3.6.1	Radical ions	262
6.3.6.2	Primary alkyl radicals	262
6.3.6.3	Secondary alkyl radicals	263
6.3.6.4	Tertiary alkyl radicals	265
6.3.6.5	Aryl radicals	266
6.3.6.6	Acyl radicals	267
6.3.6.7	Alkoxy and <i>N</i> -centred radicals	267
6.3.6.8	Metal-centred radicals	268
6.3.7	Nitrosodurene	268
6.3.7.1	Hydrogen and parent radical ions	268
6.3.7.2	Primary alkyl radicals	269
6.3.7.3	Secondary alkyl radicals	284
6.3.7.4	Tertiary alkyl radicals	301
6.3.7.5	Polyhaloalkyl radicals	307
6.3.7.6	Aryl radicals	310
6.3.7.7	Acyl radicals	315
6.3.7.8	Aminyl and other <i>N</i> -centred radicals	317
6.3.7.9	Alkoxy radicals	318
6.3.7.10	Thiyl and sulfonyl radicals	320
6.3.7.11	Other non-metal-centred radicals	321
6.3.7.12	Metal-centred radicals	323
6.3.8	3,5-Di- <i>t</i> -butylnitrosobenzene	325
6.3.9	2,4,6-Tri- <i>t</i> -butylnitrosobenzene and 2,4,6-tri- <i>t</i> -butylnitrobenzene	328
6.3.9.1	Hydrogen and radical ions	328
6.3.9.2	Primary alkyl radicals	329
6.3.9.3	Secondary alkyl radicals	337
6.3.9.4	Tertiary alkyl and aryl radicals	341
6.3.9.5	Acyl radicals	342
6.3.9.6	Nitrogen-centred radicals	342
6.3.9.7	Alkoxy radicals	342
6.3.9.8	Thiyl radicals	344
6.3.9.9	Boryl radicals	345
6.3.9.10	Phosphorus-centred radicals	345
6.3.9.11	Metal-centred radicals	346
6.3.10	Sodium 2,6-di(trideuteromethyl)-4,5-dideuteronitrosobenzene-3-sulfonate	347
6.3.11	Pentafluoronitrosobenzene	351
6.3.12	Pentamethoxynitrosobenzene	352

6.3.13 Pentamethylnitrosobenzene	356
6.3.14 3,5-Diphenyl-1-methyl-4-nitrosopyrazole	360
6.3.15 Sodium 3-(3',5'-diphenyl-4'-nitrosopyrazol-1'-yl)propane-1-sulfonate	364
6.3.16 4-Nitrosopyridine 1-oxide	365
6.3.17 Dimethyl-4-nitrosopyridine 1-oxide	366
6.3.18 Other nitrosoarenes	368
6.3.18.1 Halonitrosobenzenes	368
6.3.18.2 Alkylnitrosobenzenes	371
6.3.18.3 Alkoxy- and aryloxy-nitrosobenzenes	372
6.3.18.4 Nitronitrosobenzenes	374
6.3.18.5 Thioalkylnitrosobenzenes	375
6.3.18.6 Miscellaneous nitrosoarenes	376
6.3.19 Other nitroarenes	377
6.3.19.1 Chloronitrobenzenes	377
6.3.19.2 Alkyl- and aryl-nitrobenzenes	378
6.3.19.3 Alkoxy- and hydroxy-nitrobenzenes	381
6.3.19.4 Di- and tri-nitrobenzenes	381
6.3.19.5 Cyanonitrobenzenes	382
6.3.19.6 Nitrobenzene sulfonic acids, their amides and esters	383
6.3.19.7 Carboxynitrobenzenes	385
6.3.19.8 Ethylnitrobenzenes	387
6.3.19.9 Nitroheterocycles	389
