## Structure data of elements and intermetallic phases

BRIGITTE EISENMANN, HERBERT SCHÄFER

Abt. II für Anorganische Chemie der Technischen Hochschule, Darmstadt, FRG

### Subvolume b, Part 1

1	Introduction . . . . .	VIII
1.1	Subject matter . . . . .	VIII
1.2	Arrangement of substances . . . . .	VIII
1.3	Selection and arrangement of specific data in the tables . . . . .	VIII
1.4	List of space group symbols for various settings . . . . .	XIII
1.5	Alphabetical list of frequently used prototypes . . . . .	XX
1.6	List of symbols and abbreviations . . . . .	XXIII
2	Tables . . . . .	1
2.1	Ag–Al–Cd–S···Cu–Te–Yb . . . . .	1
3	Figures . . . . .	404
4	References for part 1 and part 2 . . . . .	444

### Subvolume b, Part 2

1	Introduction	
2	Tables (continued)	
2.2	Dy–Er–Te···Te–Zr	
3	Figures (continued)	
4	Alphabetical index of mineral and common names for the compounds of Subvolume b, parts 1 and 2 (For references, see Subvolume b, part 1)
