

7.1.3 Application-oriented amorphous ferromagnetic alloys (S. ROTH, A.R. FERCHMIN, S. KOBE).....	144
7.1.3.1 Introduction	144
7.1.3.1.1 General remarks	144
7.1.3.1.2 Correlation between different extrinsic properties, composition, intrinsic properties and the influence of preparation	145
7.1.3.1.3 How to find the data for a specific alloy in this chapter	146
7.1.3.2 Materials and properties – guide	146
7.1.3.3 Properties derived from the hysteresis loop.....	154
7.1.3.3.1 Introduction.....	154
7.1.3.3.2 Properties derived from the magnitude of the hysteresis loop.....	155
7.1.3.3.3 Properties derived from the shape of the hysteresis loop	156
7.1.3.3.4 Properties derived from the hysteresis loop – figures.....	157
7.1.3.3.4.1 Fe alloys	157
7.1.3.3.4.2 Fe-V and Fe-Cr alloys	168
7.1.3.3.4.3 Co-Fe alloys.....	171
7.1.3.3.4.4 Fe-Ni alloys	173
7.1.3.3.4.5 Co-Fe-TM alloys (TM=Cr, Ni)	176
7.1.3.4 Induced magnetic anisotropy	177
7.1.3.4.1 Field-induced anisotropy	177
7.1.3.4.2 Stress-induced anisotropy.....	181
7.1.3.4.3 Anisotropy induced by cold rolling.....	182
7.1.3.5 Magnetostriction.....	183
7.1.3.6 References for 7.1.3.....	189
7.1.4 Invar alloys (K. FUKAMICHI).....	193
7.1.4.1 Introduction	193
7.1.4.2 Fe-based alloy systems	195
7.1.4.2.1 Thermal expansion curves of Fe-Ni alloys	195
7.1.4.2.2 Fe-Ni-Co alloy system (Super Invar)	197
7.1.4.2.3 Co-Fe-Cr alloy system (Stainless Invar).....	199
7.1.4.2.4 Fe-Pd and Fe-Pt alloy systems.....	200
7.1.4.3 Mn-based alloy systems.....	202
7.1.4.4 Cr-based alloy systems	208
7.1.4.5 Amorphous alloy systems	209
7.1.4.6 References for 7.1.4	213
7.1.5 Elinvar alloys (K. FUKAMICHI).....	214
7.1.5.1 Introduction	214
7.1.5.2 Fe- or Co-based ferromagnetic Elinvar alloys	216
7.1.5.3 Mn- or Cr-based antiferromagnetic Elinvar alloys	228
7.1.5.4 Nb- or Pd-based nonmagnetic Elinvar alloys	231
7.1.5.5 Fe-, Ni- and Pd-based amorphous Elinvar alloys	235
7.1.5.6 References for 7.1.5.....	238
7.2 Hard magnetic alloys	see subvolume III/19i2
7.2.1 Magnet alloys based on 3d elements (T. NAKAMICHI)	see subvolume III/19i2
7.2.2 Rare earth – 3d magnet alloys (D. BONNENBERG, H.P.J. WIJN)	see subvolume III/19i2
7.2.3 Nd ₂ Fe ₁₄ B-type magnet alloys (H.P.J. WIJN).....	see subvolume III/19i2
7.2.4 R ₂ Fe ₁₄ C-type magnet alloys (E. BURZO, H.R. KIRCHMAYR) *)	see subvolume III/19i2
7.2.5 Rare-earth-iron interstitial compounds (E.BURZO)	see subvolume III/19i2

*) The authors' names have been unintentionally interchanged in the list of contents of subvolume III/19i2
