CONTRIBUTORS TO VOLUME 13.....	v
PREFACE.....	vii
CONTENTS OF PREVIOUS VOLUMES.....	xi
ARTICLES PLANNED FOR FUTURE VOLUMES.....	xiv

### ***g* Factors and Spin-Lattice Relaxation of Conduction Electrons**

Y. YAFET

I. Introduction.....	2
II. Spin-Orbit Coupling.....	3
III. The <i>g</i> Factor: Theory.....	15
IV. The <i>g</i> Factor: Experimental Results and Comparison with Theory.....	39
V. Spin-Lattice Relaxation in Nondegenerate Bands.....	67
Appendix A. Lack of Effect of Coulomb Interactions.....	92
Appendix B. The Magnetic Moment of a Wave Packet.....	93
Appendix C. Invariance of the <i>g</i> Shift with Respect to the Choice of $X_{11}$ .....	96

### **Theory of Magnetic Exchange Interactions: Exchange in Insulators and Semiconductors**

PHILIP W. ANDERSON

I. Introduction.....	99
II. Historical Introduction.....	101
III. Theories of Ferro-, Ferri-, and Antiferromagnetism.....	108
IV. Spin Waves.....	129
V. Empirical Values of Exchange Constants in Insulators.....	142
VI. Theory of Superexchange.....	146
VII. Double Exchange.....	209

### **Electron Spin Resonance Spectroscopy in Molecular Solids**

H. S. JARRETT

I. Introduction.....	215
II. The Hamiltonian.....	218
III. Strong Electrostatic Interactions.....	224
IV. Weak Interactions.....	275
V. Electron Spin Resonance of Excited States.....	334

**Molecular Motion in Solid State Polymers**

N. SAITO, K. OKANO, S. IWAYANAGI AND T. HIDESHIMA

I. Introduction.....	344
II. Flexibility of a Polymer.....	346
III. Statistical Mechanics of the Equilibrium Conformation of Polymers.....	349
IV. Elastic Properties of Polymers.....	363
V. Statistical Mechanics of Nonequilibrium Conformation of Polymers.....	369
VI. Viscoelastic Properties of Amorphous Polymers.....	374
VII. Classification of Dispersion and Absorption in Polymers.....	387
AUTHOR INDEX.....	503
SUBJECT INDEX.....	514
