CONTRIBUTORS TO VOLUME 28.....	vii
PREFACE .....	ix
SUPPLEMENTARY MONOGRAPHS .....	xi
ARTICLES TO APPEAR SHORTLY .....	xiii

## Some Lattice and Electronic Properties of the $\beta$ -Tungstens

M. WEGER AND I. B. GOLDBERG

I. Introduction .....	2
II. Description of the Martensitic Transformation from First Principles .....	43
III. The Electronic Band Structure of the $\beta$ -Tungstens .....	91
IV. Description of the Band Structure by Interpolation Procedures .....	104
Note Added in Proof .....	170
Appendix .....	172

## Electronic Structure of PbS, PbSe, and PbTe

RICHARD DALVEN

I. Introduction .....	179
II. Band Structure .....	191
III. Summary .....	223

## The Density-Functional Formalism and the Electronic Structure of Metal Surfaces

NORTON D. LANG

I. Introduction .....	225
II. Density-Functional Formalism .....	228

III. Electronic Structure of Unperturbed Metal Surfaces . . . . .	242
IV. Response of Metal Surfaces to Static Perturbing Charges . . . . .	279
Note Added in Proof . . . . .	295
Appendix: Surface-Energy Term $\sigma_s$ . . . . .	296

### Elastic Scattering of Low-Energy Electrons from Surfaces

M. B. WEBB AND M. G. LAGALLY

I. Introduction . . . . .	302
II. Atomic Scattering . . . . .	306
III. Kinematic Description of Diffraction . . . . .	313
IV. Experimental Aspects . . . . .	323
V. Some General Conclusions from Experimental Results . . . . .	332
VI. Dynamic Theories . . . . .	357
VII. Effect of Temperature . . . . .	380
VIII. Surface Crystallography . . . . .	395
IX. Conclusions . . . . .	404
AUTHOR INDEX . . . . .	407
SUBJECT INDEX . . . . .	417
CUMULATIVE AUTHOR INDEX, VOLUMES 1-28 . . . . .	425
