| CONTRIBUTORS TO VOLUME 29..... | vii |
| PREFACE..... | ix |
| SUPPLEMENTARY MONOGRAPHS..... | x |
| ARTICLES TO APPEAR SHORTLY..... | xi |

Ultraviolet Spectroscopy of Solids with the Use of Synchrotron Radiation

FREDERICK C. BROWN

| | |
|--|----|
| I. Synchrotron Radiation and the Vacuum Ultraviolet..... | 1 |
| II. Ultraviolet Response and Its Measurement..... | 12 |
| III. Inner Shell Spectra of Recent Interest..... | 34 |
| IV. Concluding Remarks | 70 |

Many-Body Effects on X-Ray Spectra of Metals

G. D. MAHAN

| | |
|--|-----|
| I. Introduction..... | 75 |
| II. Experiments and Early Theories..... | 82 |
| III. Independent Boson Models..... | 94 |
| IV. Theory of the X-Ray Singularity..... | 122 |
| V. Epilogue..... | 137 |

Optical Properties of Metals and Alloys

P. O. NILSSON

| | |
|---------------------------------|-----|
| I. Introduction..... | 139 |
| II. Experimental..... | 145 |
| III. Interband Transitions..... | 149 |
| IV. Intraband Transitions..... | 218 |
| V. Plasma Effects..... | 223 |

Electronic Properties of Liquid Metals and Alloys**G. BUSCH AND H.-J. GÜNTHERODT**

| | |
|------------------------------------|-----|
| I. Introduction..... | 235 |
| II. Liquid Normal Metals..... | 237 |
| III. Liquid Transition Metals..... | 276 |
| IV. Liquid Rare Earth Metals..... | 302 |
| V. Liquid Actinide Metals..... | 310 |
| VI. Conclusion..... | 312 |

Piezoelectricity in Textured Media**I. S. ZHELUDEV**

| | |
|---|-----|
| I. Introduction..... | 315 |
| II. General Considerations on the Piezoelectric Effect in Textures..... | 316 |
| III. Piezoelectric Textures of Rochelle Salt..... | 323 |
| IV. Piezoelectric Textures Containing Barium Titanate..... | 327 |
| V. Wood as a Piezoelectric Texture..... | 341 |
| VI. The Piezoelectric Properties of Rocks..... | 351 |
| VII. Some Remarks on the Piezoelectric Effect in Human and Animal Bones.... | 358 |
| AUTHOR INDEX..... | 361 |
| SUBJECT INDEX..... | 374 |
| CUMULATIVE AUTHOR INDEX, VOLUMES 1-29..... | 383 |
