SUPPLEMENTS .....	xi

## The Study of Soft-Mode Transitions at High Pressure

G. A. SAMARA AND P. S. PEERCY

I. Introduction .....	2
II. Theoretical Background .....	5
III. Displacive Ferroelectric Transitions .....	22
IV. Displacive Antiferroelectric and Antiferrodistortive Transitions: Soft Short-Wavelength Optic Phonons .....	56
V. Potassium Dihydrogen Phosphate and Its Isomorphs .....	69
VI. Other Soft-Mode Systems .....	95
VII. Effects of Pressure on Coupled Phonon Modes .....	105
VIII. Concluding Remarks .....	113
Note Added in Proof .....	117

## Beyond the Binaries—The Chalcopyrite and Related Semiconducting Compounds

A. MILLER, A. MACKINNON, AND D. WEAIRE

I. Introduction .....	119
II. Ordered Tetrahedral Structures .....	120
III. The Folding Method .....	133
IV. Lattice Vibrations .....	145
V. Band Structure .....	156
VI. Appendix: Character Tables .....	174

## Correlations in Electron Liquids

K. S. SINGWI AND M. P. TOSI

I. Introduction .....	177
II. Homogeneous Electron Liquid .....	179
III. Approximate Schemes .....	207
IV. Some Applications .....	244
Note Added in Proof .....	266

AUTHOR INDEX .....	267
SUBJECT INDEX .....	278
