## The Kinematics and Dynamics of Poloidal–Toroidal Coupling in Mantle Flow: The Importance of Surface Plates and Lateral Viscosity Variations

ALESSANDRO M. FORTE AND W. RICHARD PELTIER

1. Introduction .....	1
2. Buoyancy-Driven Plate Motions .....	5
2.1 Analytic Description of Surface Plate Kinematics .....	6
2.2 Buoyancy-Driven Plate Motions .....	13
2.3 An Assessment .....	27
3. Lateral Viscosity Variations in the Lithosphere .....	31
3.1 Theory .....	31
3.2 Net Rotations in the Lithosphere and Mantle .....	39
3.3 Inverting for Lateral Viscosity Variations .....	41
4. Mantle Dynamics with 3D Viscosity Variations .....	48
4.1 Formulation of the Variational Principle .....	48
4.2 Variational Calculation of Buoyancy-Induced Flow .....	51
4.3 Generalized Green Functions .....	58
4.4 Horizontal Divergence and Radial Vorticity of Buoyancy-Induced Surface Flow .....	61
4.5 Dynamic Surface Topography .....	72
4.6 Nonhydrostatic Geoid .....	84
4.7 Differential Rotation in the Mantle .....	89
5. Conclusion .....	92
Appendix I. Horizontal Gradients of Spherical Harmonic Functions .....	94
Appendix II. Spherical Harmonic Coupling Rules .....	96
Appendix III. Analytic Harmonic Decomposition of Horizontal Divergence and Radial Vorticity .....	101
Appendix IV. Momentum Conservation in a Medium with 3D Viscosity Variations .....	107
Appendix V. Viscous Stress Acting on an Undulating Surface .....	109
Appendix VI. Dynamic Topography with Lateral Viscosity Variations .....	111
Appendix VII. Nonhydrostatic Geoid in a Self-Gravitating Mantle .....	115
References .....	116

**Seismotectonics of the Mediterranean Region****AGUSTÍN UDÍAS AND ELISA BUFORN**

1. Introduction .....	121
2. Before Plate Tectonics (1885–1970) .....	124
2.1 Early Tectonic Interpretations .....	124
2.2 Early Seismicity and Seismotectonic Maps .....	130
2.3 Focal Mechanisms and Seismotectonics .....	136
3. Plate Tectonics Interpretations (1970–1986) .....	142
3.1 First Interpretations Based on Plate Tectonics .....	142
3.2 Tectonic Evolution .....	149
3.3 Further Seismotectonic Studies .....	156
4. Recent Seismotectonic Studies (1986–1993) .....	158
5. Azores to Tunisia .....	165
5.1 Azores–Gibraltar–Tunisia .....	166
5.2 Iberia .....	169
5.3 Maghreb .....	174
6. Italy and the Alps .....	176
6.1 Sicily–Calabria .....	176
6.2 Apennines .....	180
6.3 Alps .....	183
7. Hellenic Arc, Anatolia, and Carpathians .....	186
7.1 Hellenic Arc and Aegean .....	186
7.2 Anatolia .....	192
7.3 Carpathians .....	195
8. Conclusions .....	198
References .....	199
INDEX .....	211
