

## CONTENTS

CONTRIBUTORS TO VOLUME 32 . . . . .	vii
FOREWORD . . . . .	ix

### Technology and Observations in Radio Astronomy

WILLIAM C. ERICKSON AND FRANK J. KERR

I. Introduction . . . . .	1
II. Radio Astronomy Techniques . . . . .	2
III. Radio Observations . . . . .	22
References . . . . .	60

### Image Formation in the Electron Microscope with Particular Reference to the Defects in Electron-Optical Images

D. L. MISELL

I. Introduction . . . . .	64
II. The Angular and Energy Distributions for Electron Scattering . . . . .	66
III. Image Formation by the Elastic Component . . . . .	112
IV. Image Formation by the Inelastic Component . . . . .	158
V. Incoherent Theory of Image Formation . . . . .	165
VI. Conclusions . . . . .	179
Appendix: Deconvolution of Two-Dimensional Data . . . . .	183
References . . . . .	187
Addendum to References. . . . .	191

### Recent Advances in Field Electron Microscopy of Metals

L. W. SWANSON AND A. E. BELL

I. Introduction . . . . .	194
II. Theoretical Considerations . . . . .	194
III. Techniques . . . . .	212
IV. Clean Surface Characteristics . . . . .	223
V. Surface Adsorption . . . . .	258
VI. Emitter Surface Rearrangement . . . . .	277
VII. Technological Advances . . . . .	283
Appendix . . . . .	296
References . . . . .	304

**Multiple Scattering and Transport of Microwaves in Turbulent Plasmas**

V. L. GRANATSTEIN AND DAVID L. FEINSTEIN

I. Introduction . . . . .	312
II. Derivation of the Radiative Transport Equation . . . . .	320
III. Applications and Model Calculations . . . . .	346
IV. Comparison of Experimental Results and Model Calculations . . . . .	359
V. Brief Summary . . . . .	372
Glossary . . . . .	373
References . . . . .	376
 AUTHOR INDEX . . . . .	 383
SUBJECT INDEX . . . . .	393
