

## CONTENTS

CONTRIBUTORS TO VOLUME 49 . . . . .	vii
FOREWORD . . . . .	ix

### Ellipsometric Techniques to Study Surfaces and Thin Films

A. V. RZHANOV AND K. K. SVITASHEV

I. Introduction . . . . .	1
II. Calculation of the Relative Reflectivity Coefficient for Multilayer Reflecting Systems . . . . .	6
III. Experimental Techniques for Determining the Relative Reflectivity Coefficient . . . . .	20
IV. Examples of Experimental Ellipsometric Studies of Some Systems . . . . .	43
V. Conclusion . . . . .	75
References . . . . .	78

### Foundations and Preliminary Results on Medical Diagnosis by Nuclear Magnetism

GEORGES J. BÉNÉ

Part 1: A New Method in Medical Diagnosis . . . . .	86
I. Introduction . . . . .	86
II. Information That Can Be Obtained by Nuclear Magnetism . . . . .	87
III. The Relaxation of a Magnetic Dipole in the Water of Biological Substances . . . . .	95
Part 2: Application of the Techniques of NMR to the Study of Biological Tissues . . . . .	109
IV. The Techniques . . . . .	109
V. Application to the Study of Biological Tissues <i>in Vitro</i> (Biopsis) . . . . .	112
VI. Application to Measurements <i>in Situ</i> . . . . .	119
VII. Final Remarks . . . . .	129
References . . . . .	130
Note Added in Proof . . . . .	132

### Applications of the Glauber and Eikonal Approximations to Atomic Collisions

F. T. CHAN, M. LIEBER, G. FOSTER, AND W. WILLIAMSON, JR.

I. Introduction . . . . .	134
II. Eikonal Approximations for the Scattering Amplitudes . . . . .	137
III. Electron Scattering from Neutral Atoms . . . . .	148
IV. Ionization of Neutral Atoms by Electron Collisions . . . . .	183
V. Electron Scattering from Ions . . . . .	199
VI. Other Eikonal-Type Approximations . . . . .	205

VII. Applications of the Glauber Approximation to Electron-Molecule Collisions . . . . .	216
VIII. Summary and Conclusions . . . . .	217
References . . . . .	219

### Flicker Noise in Electronic Devices

A. VAN DER ZIEL

I. Introduction . . . . .	225
II. Unusual Examples of $1/f$ Noise . . . . .	231
III. Flicker Noise in Vacuum Tubes . . . . .	234
IV. Flicker Noise in Resistors . . . . .	244
V. $1/f$ Noise in Solid-State Devices . . . . .	269
VI. Miscellaneous Problems . . . . .	290
References . . . . .	292

### Recent Advances in Electron Beam Deflection

EDWARD F. RITZ, JR.

I. Introduction . . . . .	299
II. Magnetostatic Deflection . . . . .	303
III. Electrostatic Deflection . . . . .	323
IV. Traveling-Wave Deflection . . . . .	345
V. Scan Magnification . . . . .	349
VI. Conclusion . . . . .	354
References . . . . .	355

AUTHOR INDEX . . . . .	359
SUBJECT INDEX . . . . .	371
