

## CONTENTS

CONTRIBUTORS TO VOLUME 53 . . . . .	vii
FOREWORD . . . . .	ix

### **Particle Beam Fusion** ALAN J. TOEPFER

I. Introduction . . . . .	1
II. Power Flow and Energy Requirements for ICF . . . . .	2
III. Particle Beam Generators for ICF . . . . .	8
IV. Power Flow in Vacuum . . . . .	21
V. Particle Beam Formation and Focusing . . . . .	26
VI. The Light Ion Beam Option . . . . .	33
VII. Intense Beam Interaction with ICF Targets . . . . .	37
VIII. Summary . . . . .	42
References . . . . .	43

### **The Free-Electron Laser: A High-Power Submillimeter Radiation Source** T. C. MARSHALL, S. P. SCHLESINGER, AND D. B. McDERMOTT

I. Scattering from Relativistic Electron Beams . . . . .	48
II. Properties of Pulsed Intense Relativistic Electron Beams . . . . .	57
III. Theory of Stimulated Scattering . . . . .	59
IV. Experimental Methods, Devices, and Results . . . . .	67
References . . . . .	82

### **The Biological Effects of Microwaves and Related Questions** H. FRÖHLICH

I. Introduction . . . . .	85
II. General . . . . .	87
III. Theory . . . . .	92
IV. Consequences . . . . .	104
V. Experiments . . . . .	121
VI. Conclusions . . . . .	148
References . . . . .	150

### **Ion Optical Properties of Quadrupole Mass Filters** P. H. DAWSON

I. Introduction . . . . .	153
II. Ion Motion in the Quadrupole . . . . .	155
III. Outline of Ion Optical Techniques . . . . .	161

IV. Source Characterization . . . . .	165
V. Methods of Calculation . . . . .	166
VI. The Normal Quadrupole Mass Filter . . . . .	173
VII. Distorted Quadrupole Fields . . . . .	193
VIII. The Higher Zone of Stability . . . . .	201
IX. The RF-Only Quadrupole . . . . .	202
X. Imaging Properties . . . . .	205
XI. Conclusions . . . . .	206
References . . . . .	207

### Spread Spectrum Communication Systems

P. W. BAIER AND M. PANDIT

I. Introduction . . . . .	209
II. Basic Spread Spectrum Techniques . . . . .	214
III. Implementation of Spread Spectrum Communication Systems . . . . .	226
IV. An Alternative Approach to Spread Spectrum Signaling . . . . .	254
V. Limits of Spread Spectrum Techniques . . . . .	256
VI. Examples of Realized Spread Spectrum Communication Systems . . . . .	263
References . . . . .	266

### Electron Interference

MING CHIANG LI

I. Introduction . . . . .	269
II. Electron Wave . . . . .	271
III. Crystal Diffraction . . . . .	274
IV. Two-Beam Interference . . . . .	281
V. Interference Experiments . . . . .	289
VI. Proposed Experiments . . . . .	294
VII. Discussion . . . . .	303
References . . . . .	304
AUTHOR INDEX . . . . .	307
SUBJECT INDEX . . . . .	314
