

## CONTENTS

CONTENTS OF VOLUME B . . . . .	vii
CONTRIBUTORS . . . . .	ix
PREFACE . . . . .	xvii
ABBREVIATIONS. . . . .	xviii

### Electronography and Imaging Photon-Counting Systems

A New Concept in the Development of a Very Large Field Electrographic Camera. By X. Z. JIA AND P. J. GRIBOVAL . . . . .	1
Installation d'une Caméra Electronique Grand Champ au Télescope Canada- France-Hawaii. By B. SERVAN, G. WLÉRIK, L. RENARD, G. LELIÈVRE, V. CAYATTE, D. HORVILLE, ET J. FROMAGE . . . . .	11
Photon-Counting Imaging and Its Application. By Y. TSUCHIYA, E. INUZUKA, T. KURONO, AND M. HOSODA . . . . .	21
Interpolative Centroiding in CCD-Based Image Photon-Counting Systems. By A. BOKSENBERG, C. I. COLEMAN, J. FORDHAM, AND K. SHORTRIDGE . . . . .	33
The Imperial College System for Photon Event Counting. By R. W. AIREY, D. J. LEES, B. L. MORGAN, AND M. J. TRAYNAR . . . . .	49

### Image Intensifiers

Performance and Reliability of Third-Generation Image Intensifiers. By H. K. POLLEHN . . . . .	61
Third-Generation Image Intensifier. By E. ROAUX, J. C. RICHARD, AND C. PIAGET A Proximity-Focused Image Intensifier for Astronomy. By R. H. CROMWELL, P. A. STRITTMATTER, R. G. ALLEN, E. K. HEGE, H. KÜHR, K.-H. MARIEN, H. W. FUNK, AND K. FRANK . . . . .	71
Super Inverter Image Intensifier. By L. K. VAN GEEST AND K. W. J. STOOP . . . . .	93
A Large-Area Electron Image Multiplier. By D. WASHINGTON, A. J. GUEST, AND A. G. KNAPP . . . . .	101
A 512 Channel Parallel-Output Detector. By R. RUDOLPH, H. TÜG, AND TH. SCHMIDT-KALER . . . . .	111
Diode Intensifier Tube with Fast Phosphor Screen. By J. P. BOUTOT, R. GORET, M. JATTEAU, J. PAULIN, AND J. C. RICHARD . . . . .	113
Intensifier Solid-State Detector for Light Pulse Barycenter Reconstruction. By H. ROUGEOT, G. ROZIERE, AND B. DRIARD . . . . .	123
The Prototype MOSAIC Detector. By D. WEISTROP, J. T. WILLIAMS, AND R. P. FAHEY . . . . .	133
Design and Performance of the High-Resolution Spectrograph Sensor Subsystem By H. J. ECK, E. A. BEAVER, AND J. L. SHANNON. . . . .	141

### Charge-Coupled Devices

Electrographic Detectors versus Charge-Coupled Devices: A Comparison of Two Quality Panoramic Detectors for Stellar Photometry. By H. M. HECKATHORN, C. B. OPAL, P. SEITZER, E. M. GREEN, AND E. P. BOZYAN . . . . .	153
--	-----

Evaluation of the GEC 385 × 576 Charge-Coupled Device Image Sensor for Astronomical Use. By B. THOMSEN AND E. SØNDERGAARD . . . . .	167
Photometric and Spectroscopic Performance of a Thinned RCA CCD Detector. By R. W. LEACH . . . . .	177
The UCL Charge-Coupled Device Camera at the South African Astronomical Observatory. By D. WALKER, P. SANDFORD, A. LYONS, J. FORDHAM, D. BONE, A. WALKER, AND A. BOKSENBERG. . . . .	185
Getting More by Taking Less: A Method of Summing up Pixels on a CCD Imager. By J. R. KRAMM AND H. U. KELLER . . . . .	193
A CCD Camera for Cinematographic Use in Astronomy. By B. FORT, J. P. PICAT, C. LOURS, J. P. DUPIN, P. TILLOLES, F. AVITABILE, G. BAILLEUL, AND J. L. PRIEUR . . . . .	205
Low(est) Noise Reticon Detection Systems. By G. A. H. WALKER, R. JOHNSON, AND S. YANG . . . . .	213
Reticon Detector Electronics for the Halley Multicolor Camera on the Giotto Space Mission. By H. J. MEYER, W. K. H. SCHMIDT, AND H. ROSENBAUER . . . . .	223
Investigation of CCD-Digicon Detector System Characteristics. By R. G. HIER, E. A. BEAVER, G. W. SCHMIDT, AND C. E. MCLWAIN . . . . .	231
An Intensified Photodiode Array Detector for Space Applications. By K. S. LONG, C. W. BOWERS, P. D. TENNYSON, AND A. F. DAVIDSEN . . . . .	239
A Charge-Sensitive Readout Technique for Infrared Photoconductors. By G. W. SCHMIDT, R. G. HIER, S. E. NELSON, AND R. C. PUETTER . . . . .	251
Thinned Backside-Bombarded RGS-CCD for Electron Imaging. By M. LEMONIER, C. PIAGET, AND M. PETIT . . . . .	257
LLL TV Imaging with GaAs Photocathode/CCD Detector. By Y. BEAUVAIS, J. CHAUTEPS, AND P. DE GROOT . . . . .	267
A CCD Image Sensor Using a Glow Discharge Amorphous Si Photoconductive Layer. By O. YOSHIDA, N. HARADA, K. IDE, AND T. YOSHINO . . . . .	275
An Improved 2438 Element Three-Phase CCD Linear Image Sensor. By YOU ZHONG-QIANG, PAN SHU-REN, AND CHEN YI-FEI . . . . .	285
Improved Diagnostic Radiography and Reduced Radiation Exposure Using a 1024 × 1024 Pixels Linear Diode Array Imaging System. By D. SASHIN, J. HORTON, E. J. STERNGLASS, K. M. BRON, B. S. SLASKY, J. M. HERRON, W. H. KENNEDY, J. W. BOYER, B. R. GIRDANY, AND R. W. SIMPSON . . . . .	289
