

## CONTENTS

CONTRIBUTORS . . . . .	vii
PREFACE . . . . .	ix

### **Recent Advances in GaAs Dynamic Memories**

JAMES A. COOPER, JR.

I. Introduction, Motivation, and Potential Applications . . . . .	1
II. <i>pn</i> -Junction Storage Capacitors . . . . .	6
III. JFET and MESFET DRAM Cells . . . . .	32
IV. Heterostructure DRAM Cells . . . . .	44
V. Bipolar DRAMs. . . . .	59
VI. Future Directions . . . . .	64
References . . . . .	77

### **Expert Systems for Image Processing, Analysis, and Recognition**

TAKASHI MATSUYAMA

I. Introduction . . . . .	81
II. Expert Systems for Image Processing and Analysis (ESIPAs) . . . . .	87
III. Representing Knowledge about Image Analysis Strategies . . . . .	124
IV. Representing Spatial Relations and Spatial Reasoning for Image Understanding. . . . .	143
Concluding Remarks . . . . .	163
References . . . . .	168

### ***n*-beam Dynamical Calculations**

KAZUTO WATANABE

I. Introduction . . . . .	173
II. <i>n</i> -beam Dynamical Calculation Methods . . . . .	176
III. Bethe Method . . . . .	178
IV. Multislice Method . . . . .	187
V. Coupled Differential Equations . . . . .	199

VI. Summary . . . . .	218
Acknowledgments . . . . .	219
Appendix A: Crystal Potential . . . . .	219
References . . . . .	221
<b>Methods for Calculation of Parasitic Aberrations and Machining Tolerances in Electron Optical Systems</b>	
M. I. YAVOR	
I. Introduction . . . . .	225
II. Parasitic Aberrations caused by Electron Optical Element Misalignment . . . . .	227
III. Effects of Electromagnetic Field Disturbances on Charged Particle Trajectories . . . . .	235
IV. General Methods for Calculation of Electromagnetic Field Disturbances due to Electrode or Pole Face Distortions . . . . .	245
V. Field Disturbance in Electrostatic and Magnetic Sector Analyzers . . . . .	261
VI. Application of Approximate Conformal Mappings . . . . .	269
VII. Conclusion . . . . .	277
References . . . . .	279
INDEX . . . . .	283
