Foreword	xi
Preface	xiii
Acknowledgments	xvii
<b>11 AIR QUALITY MANAGEMENT</b>	<b>317</b>
Background and Status	317
Scientific, Technological, and General Information	319
Air Pollution Problems	328
Potential for Intervention	341
Resources	341
Standards, Practices, and Techniques	342
Modes of Surveillance and Evaluation	342
Air Pollution Controls	348
Summary	354
Research Needs	355
<b>12 SOLID WASTE MANAGEMENT</b>	<b>357</b>
Background and Status	357
Scientific, Technological, and General Information	358
Solid Waste Problems	399
Potential for Intervention	412
Resources	413
Standards, Practices, and Techniques	413
Modes of Surveillance and Evaluation	420
Controls	422
Summary	428
Research Needs	429
<b>13 PRIVATE AND PUBLIC WATER SUPPLIES</b>	<b>430</b>
Background and Status	430
Scientific, Technological, and General Information	431
Water Supply Problems	443
Potential for Intervention	449
Resources	451
Standards, Practices, and Procedures	451
Modes of Surveillance and Evaluation	473
Control	478
Summary	479
Research Needs	480

<b>14 SWIMMING AREAS</b>	<b>482</b>
Background and Status	482
Scientific, Technological, and General Information	483
Swimming Area Problems	487
Potential for Intervention	492
Resources	492
Standards, Practices, and Techniques	492
Modes of Surveillance and Evaluation	508
Control	512
Summary	513
Research Needs	513
<b>15 PLUMBING</b>	<b>514</b>
Background and Status	514
Scientific, Technological, and General Information	515
Plumbing Problems	524
Potential for Intervention	529
Resources	529
Standards, Practices, and Techniques	529
Modes of Surveillance and Evaluation	537
Control	538
Summary	543
Research Needs	543
<b>16 PRIVATE AND PUBLIC SEWAGE DISPOSAL AND SOILS</b>	<b>544</b>
Background and Status	544
Scientific, Technological, and General Information	545
Sewage Disposal Problems	594
Potential for Intervention	600
Resources	601
Standards, Practices, and Techniques	601
Modes of Surveillance and Evaluation	621
Control	626
Summary	632
Research Needs	632
<b>17 WATER POLLUTION AND WATER QUALITY CONTROLS</b>	<b>634</b>
Background and Status	634
Scientific, Technological, and General Information	635
Water Problems	640
Public Health Aspects of Water Pollution	649
Potential for Intervention	657
Resources	658
Standards, Practices, and Techniques	658
Modes of Surveillance and Evaluation	662
Control	673
Summary	680
Research Needs	681

<b>18 ENVIRONMENTAL HEALTH EMERGENCIES, NUISANCE COMPLAINTS, AND SPECIAL PROBLEMS</b>	<b>682</b>
Introduction	682
Types of Disasters	682
Disaster Plans	686
Specific Environmental Health Measures	691
Special Environmental Health Problems	695
Bibliography	i
Index	xxxv
