

# CONTENTS

|  | PAGES   |
|--|---------|
| Introduction   | 3       |
| Six-figure logarithms                                      | 4-39    |
| Six-figure antilogarithms                                  | 40-79   |
| Products of $\log_e 10 = 1/M$                              | 80      |
| Mathematical constants                                     | 80      |
| Six-figure logarithmic trigonometrical functions           | 81-125  |
| Proportional parts in twelfths (i e. for 5-seconds)        | 126-127 |
| Proportional parts in tenths (i.e. for tenths of a minute) | 128-129 |
| Notes on interpolation                                     | 130-139 |
