# LIST OF CONTENTS

Method of compilation of the tables and nomograms and rules for using them .. .. .	3
TABLE 1. Period of revolution and semi-axis of the orbit calculated from the mean diurnal motion of the artificial earth satellite .. .. .	13
TABLE 2. Values of $r/a$ and $v-M$ .. .. .	21
TABLE 3. Auxiliary tables for the calculation of the geocentric equatorial and local geocentric coordinates of the earth satellite.. .. .	127
TABLE 4. Approximate values of secular perturbations of the earth satellite caused by the oblateness of the Earth .. .. .	183
NOMOGRAMS .. .. .	189
APPENDIX. Auxiliary table for interpolation with second differences .. .. .	195
