Preface
xiii

The Classification of Wiener's Papers
2

P. Masani: Introduction and Acknowledgment
3

Bibliography of Norbert Wiener
11

IF Hopf-Wiener Integral Equations

[31a]	Über eine Klasse singulärer Integralgleichungen (with E. Hopf)	33
	J. Pincus: Commentary on [31a]	44
[46a]	A generalization of the Wiener-Hopf integral equation (with A. E. Heins)	54
	J. Pincus: Comments on [46a]	58
	A. E. Heins: Comments on [46a]	60

IG Prediction and Filtering

	T. Kailath: Equations of Wiener-Hopf type in filtering theory and related applications	63
[45a]	La teoria de la estrapolacion estadistica	95
[49a]	Sur la théorie de la prévision statistique et du filtrage des ondes	101
[50b]	Comprehensive view of prediction theory	109

[55b]	On the factorization of matrices	123
[56b]	The theory of prediction	138
[57d]	The prediction theory of multivariate stochastic processes, Part I (with P. Masani)	164
[58b]	The prediction theory of multivariate stochastic processes, Part II (with P. Masani)	204
[58d]	Sur la prévision lineaire des processus stochastiques vecto- riels à densité spectrale bornée, Part I (with P. Masani)	249
[58e]	Sur la prévision lineaire des processus stochastiques vectoriels à densité spectrale bornée, Part II (with P. Masani)	253
[59c]	On bivariate stationary processes and the factorization of matrix-valued functions (with P. Masani)	255
[59a]	A factorization of positive Hermitian matrices (with E. J. Akutowicz)	264
	E. J. Akutowicz: Comments on [59a]	274
	P. Masani: Commentary on the prediction-theoretic papers [45a], [49a], [50b], [55b], [56b], [57d], [58b], [58d], [58e], [59c], [59a]	276
	H. Salehi: The continuation of Wiener's work on q -variate linear prediction and its extension to infinite-dimensional spaces	307
	P. S. Muhly: The function-algebraic ramifications of Wiener's work on prediction theory and random analysis	339
[55a]	Nonlinear prediction and dynamics	371
[59b]	Non-linear prediction (with P. Masani)	377
	M. Kanter: Comments on [55a], [59b]	400
	G. Kallianpur: Some ramifications of Wiener's ideas on non- linear prediction	402

IH

Quantum Mechanics and Relativity Theory

[26d]	A new formulation of the laws of quantization of periodic and aperiodic phenomena (with M. Born)	427
-------	---	-----

[26e]	Eine neue Formulierung der Quantengesetze für periodische und nicht periodische Vorgänge (with M. Born)	442
[28d]	Coherency matrices and quantum theory	456
[29e]	Harmonic analysis and the quantum theory	473
	D. Bohm: Comments on [26d], [26e], [28d], [29e]	483
[53a]	Optics and the theory of stochastic processes	486
	D. Gabor: Comments on [28d], [29e], [53a]	490
[53b]	A new form for the statistical postulate of quantum mechanics (with A. Siegel)	492
[53c]	Distributions quantiques dans l'espace différentiel pour les fonctions d'ondes dépendant du spin (with A. Siegel)	502
[55c]	The differential-space theory of quantum systems (with A. Siegel)	505
[56c]	"Theory of measurement" in differential-space quantum theory (with A. Siegel)	527
	A. Siegel: Comments on [53b], [53c], [55c], [56c]	531
	D. Bohm: Comments on [53b], [53c], [55c], [56c]	535
[58a]	Logique, probabilité et méthode des sciences physiques	537
	D. Bohm: Comments on [58a]	539
[63a]	Random theory in classical phase space and quantum mechanics (with G. della Riccia)	540
[66a]	Wave mechanics in classical phase space, Brownian motion, and quantum theory (with G. della Riccia)	552
	D. Bohm: Comments on [63a], [66a]	564
	E. Nelson: The use of the Wiener process in quantum theory	565
[27f]	Quantum theory and gravitational relativity (with D. J. Struik)	580
[27g]	A relativistic theory of quanta (with D. J. Struik)	582
[27h]	Sur la théorie relativiste des quanta (with D. J. Struik)	605
[27i]	Sur la théorie relativiste des quanta (with D. J. Struik)	608
	A. H. Taub: Comments on [27f], [27g], [27h], [27i]	610

[28c]	The fifth dimension in relativistic quantum theory (with D. J. Struik)	614
	A. H. Taub: Comments on [28c]	621
[29f]	On the spherically symmetrical statical field in Einstein's unified theory of electricity and gravitation (with M. S. Vallarta)	622
[29g]	On the spherically symmetrical statical field in Einstein's unified theory: A correction (with M. S. Vallarta)	626
	A. H. Taub: Comments on [29f], [29g]	629
	M. S. Vallarta: Comments on [29f], [29g]	630

	I,I	
	Miscellaneous Mathematical Papers	
[16b]	The shortest line dividing an area in a given ratio	633
[18c]	Algebra, definitions and fundamental concepts	636
[19a]	Geometry, non-euclidean	641
[21e]	A new vector method in integral equations (with F. L. Hitchcock)	646
[22e]	A new type of integral expansion	666
[23g]	Note on a paper of M. Banach	676
	E. Hille: Comments on [23g]	684
[25f]	A contribution to the theory of interpolation	686
	G. Freud: Comments on [25f]	691
[26f]	Analytic approximations to topological transformations (with P. Franklin)	692
	L. F. McAuley and E. E. Robinson: Comments on [26f]	716
[27j]	Laplacians and continuous linear functionals	718
	T. Hida: Comments on [27j]	728
[27k]	Une généralisation des fonctions à variation bornée	730
	T. Hida: Comments on [27k]	733

[31b]	A new deduction of the Gaussian distribution	734
	T. Hida: Comments on [31b]	739
[36f]	Notes on the Kron theory of tensors in electrical machinery	740
	Index of Papers and Commentaries	751
