

TABLE OF CONTENTS

Introduction . . . . .	1
CHAPTER I - THE SINGLE FIRST ORDER EQUATION	
1. The linear and quasi-linear equations. . . . .	6
2. The general first order equation for a function of two variables. . . . .	15
3. The general first order equation for a function of n independent variables. . . . .	37
CHAPTER II - THE CAUCHY PROBLEM FOR HIGHER ORDER EQUATIONS	
1. Analytic functions of several real variables . . . . .	48
2. Formulation of the Cauchy problem. The notion of characteristics. . . . .	54
3. The Cauchy problem for the general non-linear equation. . . . .	71
4. The Cauchy-Kowalewsky theorem. . . . .	76
CHAPTER III - SECOND ORDER EQUATIONS WITH CONSTANT COEFFICIENTS	
1. Equations in two independent variables. Canonical forms . . . . .	87
2. The one-dimensional wave equation. . . . .	92
3. The wave equation in higher dimensions. Method of spherical means. Method of descent. . . . .	101
4. The inhomogeneous wave equation by Duhamel's principle . . . . .	110
5. The potential equation in two dimensions . . . . .	116
6. The Dirichlet problem. . . . .	127
7. The Green's function and the fundamental solution. . . . .	145
8. Equations related to the potential equation. . . . .	151
9. Continuation of harmonic functions . . . . .	167
10. The heat equation. . . . .	170
CHAPTER IV - THE CAUCHY PROBLEM FOR LINEAR HYPERBOLIC EQUATIONS IN GENERAL	
1. Riemann's method of integration. . . . .	186

2. Higher order equations in two independent variables. . . .	196
3. The method of plane waves. . . . .	204
LIST OF BOOKS RECOMMENDED FOR FURTHER STUDY . . . . .	215
INDEX. . . . .	217
