

CONTENTS

Chapter I. LINEAR POSITIVE FUNCTIONALS AND OPERATORS.

| | | | |
|------|--|-----|----|
| § 1. | Linear positive functionals. | ... | 1 |
| § 2. | Linear positive operators. | ... | 9 |
| § 3. | Approximation of functions by means of algebraic polynomials. | ... | 23 |
| § 4. | Approximation of functions by trigonometric polynomials. | ... | 30 |
| § 5. | Conditions for convergence of a sequence of linear positive operators. | ... | 38 |
| | Problems and theorems. | ... | 50 |

Chapter II. ORDER OF APPROXIMATION OF FUNCTIONS BY MEANS OF POLYNOMIALS.

| | | |
|------|--|----|
| § 1. | Polynomials which deviate the least from functions. | 56 |
| § 2. | Modulus of continuity. | 63 |
| § 3. | General methods of summation of Fourier series. | 66 |
| § 4. | Order of approximation of functions by means of trigonometric polynomials. | 77 |
| § 5. | Order of approximation of functions by means of algebraic polynomials. | 79 |

Chapter III. CHARACTERISTIC OF DIFFERENTIAL PROPERTIES OF A FUNCTION WITH RESPECT TO THE SEQUENCE OF ITS BEST APPROXIMATIONS.

- | | | | |
|------|--|-----|----|
| § 1. | Order of growth of derivatives of polynomials and trigonometric polynomials. | ... | 89 |
| § 2. | Characteristic of differential properties of functions. | | 93 |

Chapter IV. ORDER OF APPROXIMATION OF FUNCTIONS BY MEANS OF LINEAR POSITIVE POLYNOMIAL OPERATORS.

- | | | | |
|------|---|-----|-----|
| § 1. | Order of approximation of functions by means of linear positive functionals. | ... | 110 |
| § 2. | Order of approximation of functions by means of Fejer operators. | ... | 114 |
| § 3. | Order of approximation of functions by means of Bernstein polynomials. | ... | 120 |
| § 4. | Order of approximation of functions by means of linear positive polynomial operators. | ... | 127 |
| | P r o b l e m s a n d t h e o r e m s . | ... | 133 |

Chapter V. LINEAR CONTINUOUS POLYNOMIAL OPERATORS.

- | | | | |
|------|---|-----|-----|
| § 1. | Linear continuous operators. | ... | 136 |
| § 2. | Auxiliary relations. | ... | 147 |
| § 3. | Non-uniformly convergent sequences of linear continuous polynomial operators. | ... | 149 |
| § 4. | Valle'e-Poussin operators. | ... | 154 |
| | P r o b l e m s a n d t h e o r e m s . | ... | 165 |

Chapter VI. FOURIER SERIES.

- | | | | |
|------|--|-----|-----|
| § 1. | Uniform convergence of Fourier series. | ... | 168 |
| § 2. | Mean convergence of Fourier series. | ... | 175 |
| § 3. | Local convergence of Fourier series. | ... | 180 |

| | | | |
|------|--|-----|-----|
| § 4. | Convergence of a sequence of linear positive polynomial operators. | ... | 185 |
|------|--|-----|-----|

| | | | |
|------|---|-----|-----|
| § 5. | General methods of summation of Fourier series. | ... | 187 |
|------|---|-----|-----|

Chapter VII. INTERPOLATING POLYNOMIALS.

| | | | |
|------|----------------------------|-----|-----|
| § 1. | Interpolating polynomials. | ... | 194 |
|------|----------------------------|-----|-----|

| | | | |
|------|-------------------------|-----|-----|
| § 2. | Tshebyshev polynomials. | ... | 198 |
|------|-------------------------|-----|-----|

| | | | |
|------|--|-----|-----|
| § 3. | Existence of interpolating polynomials and norm of the polynomials $L_{T_n}(f; x)$. | ... | 210 |
|------|--|-----|-----|

| | | | |
|------|--|-----|-----|
| § 4. | Hermite interpolating polynomials and the Fejer theorem. | ... | 216 |
|------|--|-----|-----|

| | | | | | | |
|-------|-----|-----|-----|-----|-----|-----|
| INDEX | ... | ... | ... | ... | ... | 221 |
