

# CONTENTS

|  |   |     |
|--|---|-----|
| I.   | Historical Introduction . . . . .   | 1   |
| PART I. THEORY OF MATHIEU FUNCTIONS        |   |     |
| II.  | Functions of Integral Order . . . . .   | 10  |
| III.                                       | Calculation of Characteristic Numbers and Coefficients . . . . .                              | 28  |
| IV.  | General Theory: Functions of Fractional Order: Solution of Equations . . . . .                | 57  |
| V.   | Numerical Solution of Equations . . . . .   | 104 |
| VI.  | Hill's Equation . . . . .   | 127 |
| VII.                                       | Non-Periodic Second Solutions corresponding to $ce_m$ ,<br>$se_m$ , $Ce_m$ , $Se_m$ . . . . . | 141 |
| VIII.                                      | Solutions in Series of Bessel Functions . . . . .   | 158 |
| IX.  | Wave Equation in Elliptical Coordinates: Orthogonality Theorem . . . . .                      | 170 |
| X.   | Integral Equations and Relations . . . . .  | 178 |
| XI.  | Asymptotic Formulae . . . . .   | 219 |
| XII.                                       | Zeros of the Mathieu and modified Mathieu Functions of Integral Order . . . . .               | 234 |
| XIII.                                      | Solutions in Bessel Function Product Series . . . . .   | 243 |
| XIV.                                       | Miscellaneous Integrals involving Mathieu Functions . . . . .                                 | 259 |
| PART II. APPLICATIONS OF MATHIEU FUNCTIONS |   |     |
| XV.  | Applications of $y'' + (a - 2q \cos 2z)y = 0$ . . . . .                                       | 267 |
| XVI.                                       | Application of the Wave Equation to Vibrational Systems . . . . .                             | 294 |
| XVII.                                      | Electrical and Thermal Diffusion . . . . .  | 320 |
| XVIII.                                     | Electromagnetic Wave Guides . . . . .   | 333 |
| XIX.                                       | Diffraction of Sound and Electromagnetic Waves . . . . .                                      | 358 |

## CONTENTS

|                    |   |     |
|--------------------|---|-----|
| APPENDIX I.        | Degenerate Forms of Mathieu and modified<br>Mathieu Functions . . . . . | 367 |
| APPENDIX II.       | Table of Characteristic Numbers $a_m$ , $b_m$ . . . . .                 | 371 |
| APPENDIX III.      | Classification of Mathieu Functions . . . . .                           | 372 |
| REFERENCES A.      | Scientific Papers . . . . .   | 373 |
|                    | B. Books . . . . .  | 380 |
|                    | C. Additional References . . . . .                                      | 381 |
| ADDITIONAL RESULTS | . . . . .   | 382 |
| INDEX              | . . . . .   | 395 |

*Additional Results, p. 382*
