

# CONTENTS

<i>Preface</i>	vii
<i>List of Notation</i>	ix
<b>Introduction</b>	
1. The Fourier Series	1
2. The Fourier Integral	3
3. Fourier-Bessel Series	3
4. The Bessel Transform	4
5. Generation of Fourier Series by Means of Integral Transforms	4
<b>I. Fourier Series with Elementary Coefficients Representing Elementary Functions</b>	7
Appendix: Some Results Involving Generalized Functions	18
<b>II. Fourier Series with Elementary Coefficients Representing Higher Functions</b>	23

<b>III. Fourier Series with Higher Function Coefficients Representing Elementary Functions</b>	31
<b>IV. Fourier Series with Higher Function Coefficients Representing Higher Functions</b>	43
<b>V. Exponential Fourier and Fourier-Bessel Series</b>	57
