

CONTENTS

SESSION I	<i>Page</i>	<i>Page</i>
Chairman: Mr. W. E. Willshaw (The M-O Valve Co. Ltd.)		Double Injection and Noise in Germanium Diodes
The Physical Basis of Noise		F. Driedonks and R. J. J. Zijlstra (University of Utrecht, Netherlands)
F. J. Hyde (University College of Wales, Bangor)	1	95
Noise Measurement Techniques Applied to Devices		Burst Noise in Silicon Planar Transistors
W. A. Gambling (University of Southampton)	18	J. C. Martin, D. Esteve and G. Blasquez (C.N.R.S., Toulouse, France)
Noise in Microwave Tubes		99
A. D. Williams (The M-O Valve Co. Ltd.)	30	Low Frequency Noise in Amplifying Devices
Noise Generated by Signals		K. F. Knott (University of Salford)
C. S. Bull (University of Aston in Birmingham)	36	103
The Transit Counting Method as a Detector in V.L.F. Noise Spectrum Measurement		SESSION III
H. Sutcliffe (University of Salford)	40	Chairman: Professor A. Van der Ziel (University of Minnesota)
A Radiometer for Measurement of the Noise Temperature of Low Noise Microwave Amplifiers		1/f Noise
J. W. Carter, H. N. Daglish and P. Moore (P.O. Research Department, Dollis Hill, London)	44	D. A. Bell (University of Hull)
Flicker Noise from Tungsten Cathodes		106
B. J. Climer (G.E.C. Hirst Research Centre)	50	Noise Measurements in Copper-Phtalocyanine Thin Films
The Shot Noise of a Thermionic Diode		J. P. Fillard, G. Lecoy and D. Rigaud (C.N.R.S., Montpellier, France)
C. S. Bull and F. Arthur (University of Aston in Birmingham)	54	116
Demonstration of the Fluctuations of the Conductance of a Diode		Amplitude Distribution of 1/f Noise in CdSe Thin Layers
C. S. Bull and P. Breeze (University of Aston in Birmingham)	58	F. N. Hooge (Philips Research Laboratories, Eindhoven, Netherlands)
		123
SESSION II		Current Noise in M.O.S. Transistors at Very Low Frequencies
Chairman: Professor D. A. Bell (University of Hull)		R. J. Hawkins, I. R. M. Mansour and G. G. Bloodworth (University of Southampton)
Noise in Semiconductor Devices—Theory		127
A. Van der Ziel (University of Minnesota, U.S.A.)	61	Hysteresis Effects in M.O.S. Transistors
Noise in Semiconductor Devices—Experiments		I. Lundström, S. Christensson and C. Svensson (Chalmers University, Sweden)
E. A. Faulkner (University of Reading)	79	131
Noise of Field-Effect Transistors at Very High Frequencies		Low Frequency Noise in M.O.S.Ts
F. M. Klaassen (Philips Research Laboratories, Eindhoven, Netherlands)	91	F. Berz and I. Flinn (Mullard Research Laboratories)
		135
		1/f Noise in Silicon Planar Transistors
		J. C. Martin, D. Esteve, A. de Cacqueray and J. M. Ribeyrol (C.N.R.S., Toulouse, France)
		139
		Noise in Thin Films Metal-Oxide-Metal Al-Al ₂ O ₃ -Al
		L. Gousskov, G. Lecoy and M. Savelli (C.N.R.S., Montpellier, France)
		144

SESSION IV	<i>Page</i>	SESSION V	<i>Page</i>
Chairman: Professor F. J. Hyde (University College of Wales, Bangor)		Chairman: Professor R. L. Beurle (University of Nottingham)	
Radiation Statistics		Noise in Electron/Photo Multipliers	
P. A. Lindsay (King's College, London)	150	C. J. Oliver (Royal Radar Establishment)	207
Noise in Masers and Lasers		Low Noise Image Detectors	
C. R. Ditchfield (Royal Radar Establishment)	162	P. H. Batey (English Electric Valve Co. Ltd)	219
Investigation of the Current-Noise and Frequency Modulation Noise in Gunn Diodes		Statistics of Channel Multiplier Particle Detectors	
M. L. Meade (J. J. Thomson Physical Laboratory, Reading)	174	W. M. Sackinger and J. M. Johnson (Corning Glass Works, New York, U.S.A.)	227
The Influence of Johnson Noise on Bulk Negative Resistance Devices		The Temperature Dependence of the Dark Current of a Photo-Electron Multiplier	
G. S. Hobson (University of Sheffield)	180	D. E. G. Hathaway and C. S. Bull (University of Aston in Birmingham)	232
Noise in Solid State Photodetectors		Noise in Parametric Amplifiers	
R. J. J. Zijlstra (University of Utrecht, Netherlands)	184	C. S. Aitchison (Mullard Research Laboratories)	236
Noise in the Pyroelectric Detector		The Noise Temperature of Liquid Helium Cooled Parametric Amplifiers	
D. E. Charlton and G. Baker (Mullard Limited, Southampton)	198	P. A. Watson (University of Durham)	243
Some Practical Aspects of Noise in Infrared Detectors			
J. A. Chiari and M. R. Josey (Mullard Limited, Southampton)	202
