1967 IEEE INTERNATIONAL CONVENTION RECORD
PART 6 -- SOLID-STATE CIRCUIT AND DEVICES

TABLE OF CONTENTS

	<u>Page</u>
<u>Solid-State Devices Frontiers</u> (Session 15: Sponsored by Electron Devices Group)	
Linear Integrated Circuits: Today and Tomorrow.....R. S. Pepper	3
The Future Role of Field-Effect Devices in Electronics.....F. P. Heiman	12
Secondary Breakdowns in Power Transistors and Circuits.....W. C. Steffe	20
New Solid State Devices for Microwave Power Generation.....M. R. Barber	25
 <u>Microwave Miniaturization -- A Progress Report</u> (Session 16: Sponsored by Microwave Theory and Techniques Group)	
Microwave Semiconductor Devices.....R. R. Webster	29
Microwave Hybrid Integrated Circuits.....J. E. Dalley	30
Planar Ferrite Devices for Microwave Integrated Circuitry.....H. A. Hair	37
Recent Advances in Microwave Integrated Circuits Combining Semiconductor and Ferrimagnetic Elements.....J.C. Hoover, G.A.Foggiato, R.W.Peter & L.B.Valdes	39
 <u>Integrated Circuits -- Their Current Technology and Economy</u> (Session 46: Sponsored by Parts, Materials and Packaging Group)	
Integrated Circuits - Their Current Technical and Economic Status.....E. F. Kvanne	41
Monolithic Analog Circuits.....J. E. Solomon and T. M. Frederiksen	43
MOS Complex Arrays - Today and Tomorrow.....W. R. McKinley	50
Microwave Integrated Circuits.....R. Webster	55
Aspects of Large Scale Integration.....O. R. Baker	56

PART 6

Table of Contents (Cont'd.)

	<u>Page</u>
<u>Integrated Digital Circuits</u> (Session 60: Sponsored by Circuit Theory Group)	
Functional Analysis of Integrated Digital Circuits.....	J. J. Suran 58
Yield, Economic, and Logistic Models for Complex Digital Arrays.....	R. B. Seeds 60
Layout and Mask Generation for LSI.....	D. L. Critchlow 62
Discretionary Wiring: An Approach to Large Scale Integration.....	J. S. Kilby 71
Advanced Developments in Subnanosecond Integrated Logic Circuits.....	J. A. Narud and W. C. Seelbach 72
 <u>Integrated Analog Circuits</u> (Session 69: Sponsored by Circuit Theory Group)	
Amplifier Designs Using Repetitive Stabilized Gain Elements.....	G. W. Haines and B. E. Amazeen 87
Realization of Real Transmission Zeros Using Uniform Distributed RC Networks with Common Ground Connections.....	J. Stein, S.S. Shamis & J.H. Mulligan, Jr. 98
An Integrated Circuit Helmet Radio Receiver.....	R. A. Gilson and T. B. Quaid 106
The Application of Commercially Available Integrated Circuits in FM and AM Receivers.....	G. R. Madland and R. L. Hartley 118
An Integrated RC Oscillator for Touch-Tone Dialing	W. H. Orr, R. M. Rickert and D. M. Hill 127
