Foreword	vii
Preface	ix
Speakers	xv

SESSION I

Chairman: Professor A. R. COLLAR

B. D. HENSHALL: Experimental Results from the N.P.L. Hypersonic Shock Tunnel	1
DISCUSSION of Paper by B. D. Henshall	37
R. K. LOBB: Hypersonic Research at the Naval Ordnance Laboratory ..	45
DISCUSSION of Paper by R. K. Lobb	74

SESSION II

Chairman: Mr. M. B. MORGAN

K. N. C. BRAY, L. PENNELEGION and R. A. EAST: Performance Studies for the University of Southampton Hypersonic Gun Tunnel	89
R. N. COX: Recent Hyperballistics Research at ARDE—The ARDE Gun Tunnels and Some Experimental Studies of Hypersonic Flow ..	111
DISCUSSION of Papers by K. N. C. Bray <i>et al.</i> and R. N. Cox	142

Contents

SESSION III

Chairman: Dr. W. P. JONES

Page

D. A. SPENCE and B. A. WOODS: Boundary Layer and Combustion Effects in Shock Tube Flows	153
DISCUSSION of Paper by D. A. Spence and B. A. Woods	181
J. W. MILES: Unsteady Flow at Hypersonic Speeds	185
DISCUSSION of Paper by J. W. Miles	198
H. OERTEL: Hypersonic Research at the LRSL, Saint-Louis	203
DISCUSSION of Paper by H. Oertel	213

SESSION IV

Chairman: Mr. L. F. NICHOLSON

K. W. MANGLER: The Calculation of the Flow Field between a Blunt Body and the Bow Wave	219
M. D. VAN DYKE: Some Numerical Solutions in Hypersonic Flow	239
DISCUSSION of Papers by K. W. Mangler and M. D. Van Dyke	247
J.-P. GUIRAUD: Newtonian Flow over a Surface—Theory and Applications	253
DISCUSSION of Paper by J.-P. Guiraud	297

SESSION V

Chairman: Dr. A. E. RUSSELL

D. L. SCHULTZ: Shock Tube Research at the National Physical Laboratory on the Properties of Gases at High Temperatures. Part I, Ionization Measurements	301
K. C. LAPWORTH: Shock Tube Research at the National Physical Laboratory on the Properties of Gases at High Temperatures. Part II, Preliminary Spectrographic Measurements	317
DISCUSSION of Papers by D. L. Schultz and K. C. Lapworth	340
H. METCALFE: Some Aspects of the Design of Hypersonic Vehicles	345

Contents

SESSION VI

Chairman: Sir ARNOLD HALL

A. J. EGGERS, JR: Some Considerations of Aircraft Configurations suitable for Long-Range Hypersonic Flight	369
R. R. JAMISON: Hypersonic Air Breathing Engines	391
DISCUSSION of Papers by H. Metcalfe, A. J. Eggers, Jr. and R. R. Jamison ..	409
 List of Members	 429
