

## CONTENTS

### PART 1. OPTIMIZATION PROBLEMS

H.Halkin: The Method of Dubovitskii-Milyutin in Mathematical Programming .....	1
R.T.Shield: Optimum Design of Structures Through Variational Principles .....	13
T.Y.Wu ,A.T.Chwang and P.K.C.Wang: Optimization Problems in Hydrofoil Propulsion .....	38

### PART 2. STABILITY PROBLEMS

E.F.Infante: Stability Theory for General Dynamical Systems and Some Applications .....	63
E.M.Barston: Stability of Dissipative Systems with Applications to Fluids and Magnetofluids .....	83
