

TABLE OF CONTENTS

Volume I

Preface	v
PART 1. Integrable Systems	
Nonlinear Evolution Equations, Solitons and Cellular Automata	3
<i>M.J. Ablowitz</i>	
Integrable Lattice Equations and Hierarchies	20
<i>H.W. Capel</i>	
Hamiltonian Structure of Nonlinear Evolution Equations	40
<i>A.P. Fordy</i>	
Initial/Boundary Value Problem for Integrable Equations	63
<i>S. De Lillo</i>	
Interacting Soliton Equations and a New Way to Obtain Soliton Solution-KdV Case	71
<i>T. Yoneyama</i>	
Integrable Potentials with Logarithmic Integrals of Motion	78
<i>S. Ichtiaroglou & G. Voyatzis</i>	
PART 2. Non-Integrable Hamiltonian Systems	
Long-Time Tails and $1/f$ -Noise in Nonintegrable Hamiltonian Systems	87
<i>T. Geisel</i>	
Symmetry in the Normal Form of the Hénon-Heiles Hamiltonian	97
<i>A. Rauh, R.F.S. Andrade & Ch. F. Kougias</i>	
Converse KAM Theory (extended abstract)	109
<i>R.S. MacKay</i>	
Non-Existence of an Additional Analytic Integral in Hamiltonian Systems with an N-Dimensional Homogeneous Potential (extended abstract)	114
<i>H. Yoshida</i>	
The Birth of Twin Poincare-Birkhoff Chains Near 1:3 Resonance	118
<i>K. van der Weele</i>	
Complex Instability in 3-D Systems	130
<i>G. Contopoulos & L. Zachilas</i>	

PART 3. Chaos and Fractal Structures

Cantor Set Structures in Classical Potential Scattering	139
<i>C. Jung & H.-J. Scholz</i>	
Dimension of Dynamically Constructed Cantor Sets	156
<i>A. Cascon & R. Langevin</i>	
Chaos, Universality and Fractals in a Dissipative Growth System	181
<i>S.-P. Kantola & H.M. Isomäki</i>	
Weak Periodicity and Example: A Structure Intermediate Between Quasiperiodic and Random (extended abstract)	187
<i>S. Aubry</i>	
Nonsymmetric Circle Maps	189
<i>K.M. Pinnow & A. Huber</i>	
New Results in Intermittent Switching	195
<i>T. Post, H.W. Capel & J.P. van der Weele</i>	
Harmonic Synchronization Area of a Non Autonomous System with Quadratic Non Linearities	201
<i>D. Fournier-Prunaret & C. Mira</i>	
On Synchronized Periodic Solutions of a Parametrically Forced van der Pol Oscillator	207
<i>G.M. Mahmoud & T. Bountis</i>	
PART 4. Other Topics	
Extension of the Wave Function in Quantum Dynamics	225
<i>L.E. Reichl</i>	
Threshold Effects in the Transport of Energy from a Hot to a Cold Oscillator	244
<i>L. Bonci & P. Grigolini</i>	
Codimension Two Interactions of Tearing Modes	267
<i>R. Grauer</i>	
Mode Interactions and Symmetry	277
<i>J.D. Crawford, E. Knobloch & H. Riecke</i>	
Structures in Conservative or Dissipative Dynamical Systems	298
<i>R.L. Clerc, C. Hartmann & B. Razafimandimby</i>	
Some Properties of Nonlinear MAP Estimation by Stimulated Annealing . . .	318
<i>A. Kehagias</i>
