

CONTENTS

Tatsumi T.	
Irregularity, regularity and singularity of turbulence.....	1
Liepmann H.W.	
Laufer Memorial Tribute.....	11
 <u>Instability of flows and transition to turbulence</u>	
Stuart J.T.	
Instability of laminar flows, nonlinear growth of fluctuations and transition to turbulence.....	17
Brachet M.E. & Orszag S.A.	
Secondary instability of free shear flows.....	27
Fasel H.	
Numerical simulation of nonlinear growth of wave packets in a boundary layer.....	31
Reshotko E.	
Disturbances in a laminar boundary layer due to distributed surface roughness.....	39
Gotoh K. & Mizushima J.	
Nonlinear evolution of disturbances of two modes in the natural convection induced in a vertical fluid layer.....	47
Herbert T.	
Modes of secondary instability in plane Poiseuille flow.....	53
Itoh N.	
Landau coefficients of the Blasius boundary-layer flow	59
Nagata M. & Busse F.H.	
Secondary and tertiary bifurcations in a plane parallel shear flow....	65
Orszag S.A.	
Instabilities and turbulence.....	73
Mullin T.	
Transition to turbulence in non-standard rotating flows.....	85
Nishioka M. & Asai M.	
Evolution of Tollmien-Schlichting waves into wall turbulence.....	87
Widnall S.E.	
Growth of turbulent spots in plane Poiseuille flow.....	93
Gaster M.	
On transition to turbulence in boundary layers.....	99
Sato H.	
The transition process of free shear layers.....	107
Herring J.R. & Jackson S.	
Thermal convection: numerical experiments near onset to turbulence and the statistical theory of turbulence.....	111
Saric W.S. & Thomas A.S.W.	
Experiments on the subharmonic route to turbulence in boundary layers.....	117

- Cantwell B.J. & Allen G.A.Jr.
 Transition and mixing in impulsively started jets and vortex rings... 123

Generation and dynamics of chaos

- Gollub J.P. & Heutmaker M.S.
 Convective pattern evolution and the onset of weak turbulence..... 135
- Yuen H.C.
 Instability and chaos in a nonlinear dispersive wave system..... 145
- Kaneko K.
 Mechanism of frequency lockings at the transition from torus to
 chaos..... 151
- Knobloch E.
 Transition to chaos in doubly-diffusive convection..... 157
- Sano M. & Sawada Y.
 Experimental study of Poincaré mappings in Rayleigh Bénard
 convection..... 167
- Kessler R., Dallmann U. & Oertel H.
 Nonlinear transitions in Rayleigh-Bénard convection..... 173
- Brandstäter A., Swift J., Swinney H.L. & Wolf A.
 A strange attractor in a Couette-Taylor experiment..... 179
- Iooss G.
 Generation of chaos by interaction between bifurcations..... 185
- Sreenivasan K.R. & Strykowski P.J.
 On analogies between turbulence in open flows and chaotic dynamical
 systems..... 191
- Busse F.H.
 1 Transition to turbulence via the statistical limit cycle route..... 197
- Mandelbrot B.B.
 Each fractal set has a unique fractal dimension..... 203
 Comment on coherent structures in fluids, fractals, and the fractal
 structure of flow singularities..... 207
- Yahata H.
 Transition to turbulence in the Taylor-Couette flow and the Rayleigh-
 Bénard convection..... 209
- Arneodo A., Coullet P.H. & Spiegel E.A.
 Chaos and temporal intermittency in mildly unstable fluids..... 215

Dynamics of vortex motions

- Moffatt H.K.
 Simple topological aspects of turbulent vorticity dynamics..... 223
- Hasimoto H., Ishii K., Kimura Y. & Sakiyama M.
 Chaotic and coherent behaviours of vortex filaments in bounded
 domains..... 231
- Kambe T.
 Some dissipation mechanisms in vortex systems..... 239
- Takaki R. & Hussain A.K.M.F.
 Entanglement of two vortex filaments..... 245

- Zabusky N.J.
Contour dynamics: a method for inviscid and nearly inviscid two-dimensional flows..... 251

- Novikov E.A.
Generalized dynamics of three-dimensional vortex singularities..... 259

Homogeneous turbulence

- Choi K.S. & Lumley J.L.
Return to isotropy of homogeneous turbulence revisited..... 267

- Fournier J.D.
Renormalization (group) methods and intermittency in statistical fluid dynamics..... 273

- Kida S. & Yamada M.
Singularity and energy spectrum in a two-dimensional incompressible inviscid flow..... 275

- Larcheveque M.
Diffusion in homogeneous turbulence..... 281

- Mestayer P., Chollet J.P. & Lesieur M.
Inertial subrange of velocity and scalar variance spectra in high Reynolds number three-dimensional turbulence..... 285

- Mori H. & Takayoshi K.
Intermittency and relative diffusion in fully-developed turbulence.... 289

- Hopfinger E.J., Mory M. & Gagne Y.
Two-dimensionalisation by rotational constraints of homogeneous 3D turbulence..... 293

- Frisch U.
Numerical simulation of fully developed turbulence and the appearance of spatial chaos..... 301

- Shieh S.C.
Large scale spectrum of homogeneous nonisotropic turbulence with constant transverse mean velocity gradient or scalar gradient..... 303

- Levich E., Levich B. & Tsinober A.
Helical structures, fractal dimensions and renormalization group approach in homogeneous turbulence..... 309

- Nelkin M. & Nakano T.
How do the small scales become isotropic in Navier-Stokes turbulence?. 319

Turbulent shear flows

- Huang L.S. & Ho C.M.
Development of free shear layer..... 327

- Zhou Z.W.
Energy spectrum in the equilibrium range of homogeneous shear-flow turbulence..... 333

- Lesieur M.
Intermittency of coherent structures: an approach using statistical theories of isotropic turbulence..... 339

- Perry A.E. & Chong M.S.
Some recent developments in the description of eddying motions..... 351

Huang Y.N.	On the statistical vorticity structure theory of homogeneous turbulent shear flow.....	357
Chevray R.	Entrainment in turbulent flows: mechanisms and implications.....	365
Fukunishi Y.	Influence of ordered motions on the structure of outer region of the turbulent boundary layer.....	371
Kuwahara K. & Takami H.	Study of turbulent wake behind a bluff body by vortex method.....	377
Shirakashi M., Arakawa T. & Wakiya S.	The turbulent structure and the diffusion of the nozzle fluid in an impulsively started axisymmetrical jet.....	385
Wei Q.D., Saito H. & Onda Y.	The visualized large-scale motions in the turbulent boundary layer...	391
Coles D.	On one mechanism of turbulence production in coherent structures.....	397
Wygnanski I. & Champagne F.	On large coherent structures in two-dimensional turbulent wakes.....	403
Fiedler H.E.	The mono-frequency shear layer.....	411
Eckelmann H., Kastrinakis E.G. & Nychas S.G.	Vorticity and velocity measurements in a fully developed turbulent channel flow.....	421
Yanenko N.N., Bardekhyan S.P. & Kozlov V.V.	Transformation of acoustic oscillations into the eddy ones in turbulent flows.....	427
Yoshizawa A.	Statistical analysis of the deviation of the Reynolds stress from its eddy-viscosity representation.....	433
Zaric Z., Falco R.E. & Blackwelder R.F.	Detection of coherent structures in visual and multiple hot-wire data in boundary layers.....	439
Wallace J.M.	Observations on the nature and mechanism of the bounded turbulent shear flow structure.....	447
Hussain A.K.M.F.	Coherent structures and incoherent turbulence.....	453
Kobashi Y., Komoda H. & Ichijo M.	The wall pressure fluctuation and the turbulent structure of a boundary layer.....	461
Landahl M.T.	On the dynamics of large eddies in the wall region of a turbulent boundary layer.....	467
<u>Miscellaneous effects on turbulence</u>		
Yoden S. & Hirota I.	A numerical study on periodic and chaotic behaviour in a geophysical fluid system.....	477

Ye J.T.	On kinetic methods of description for turbulent flows.....	483
Hino M., Nadaoka K. & Nguyen S.H.	Turbulent interfacial structure of two-layered stratified flows.....	489
Ogino F., Takeuchi H., Wada H. & Mizushima T.	Buoyancy effects on turbulence in axisymmetric turbulent buoyant jet.....	495
Pouquet A., Meneguzzi M., Frisch U. & Sulem P.L.	Numerical simulations of magnetohydrodynamic turbulence.....	501
Schertzer D. & Lovejoy S.	On the dimension of atmospheric motions.....	505
Toba Y., Kawamura H. & Okuda K.	Ordered motions in turbulent boundary layers above and below wind waves.....	513
Van Atta C.W., Helland K.N. and Itsweire E.C.	The influence of stable stratification on spatially decaying vertically homogeneous turbulence.....	519
Antonia R.A., Chambers A.J., Browne L.W.B. & Rajagopalan S.	The organised structure in a slightly heated turbulent plane jet.....	529
Howard L.N. & Krishnamurti R.	Large-scale flow in turbulent convection.....	535
Mitchell J.L. & Maxworthy T.	Large-scale turbulence in the Jovian atmosphere.....	543
