

CONTENTS

PREFACE	vii
G. LOCHAK / De Broglie's initial conception of De Broglie waves	1
P.W. MILONNI / Wave-particle duality of light: a current perspective	27
H. RAUCH / Wave-particle dualism in matter wave interferometry	69
A. STEYERL / Neutron wave optics studied with ultracold neutrons	85
F. SELLERI / "Gespensterfelder"	101
A. GOZZINI / On the possibility of realising a low intensity interference experiment with a determination of the particle trajectory	129
G. TAROZZI / From ghost to real waves: a proposed solution to the wave-particle dilemma	139
D. FARGUE / Permanence of the corpuscular appearance and non linearity of the wave equation	149
P. LOCHAK / Could solitons be adiabatic invariants attached to certain non linear equations?	173
P. CALDIROLA / Introduction of the chronon in the theory of electron and the wave-particle duality	183
S. DINER / The wave-particle duality as an interplay between order and chaos	215
M.V. BERRY / Structures in semiclassical spectra: a question of scale	231
L.S. SCHULMAN / Ray optics for diffraction: a useful paradox in a path integral context	253

V. AQUILANTI / Atomic collision experiments at the border line between classical and quantum mechanics	273
M. ROOS / On the superposition principle and its physics content	291
L. ACCARDI / The probabilistic roots of the quantum mechanical paradoxes	297
P. SUPPES, M. ZANOTTI / Causality and symmetry	331
F. FER / A critical analysis of the quantum theory of measurement	341
M.D. Srinivas / Quantum interference of probabilities and hidden variable theories	367
A. ASPECT / Experimental tests of Bell's inequalities	377
J. SIX / Tests of the non separability of the $K^0\bar{K}^0$ system	391
F. FALCIGLIA, L. FORNARI, A. GARUCCIO, G. IACI, L. PAPPALARDO / A new approach to testing the sepa- rability in microphysics: Rapisarda's experiment	397
S. BERGIA / On the possibility of extending the tests of quantum mechanical correlations	413
D. AERTS / How do we have to change quantum mechanics in order to describe separated systems?	419
C. W. RIETDIJK / On the four-dimensional character of micro-physical phenomena	433
P. PEARLE / Dynamics of the reduction of the statevector	457
O. COSTA DE BEAUREGARD / CPT revisited: a manifestly covariant presentation	485
S.P. GUDDER / Wave-particle duality in a quark model	499
W.H. ZUREK / Destruction of coherence in nondemolition monitoring: quantum "watchdog effect" in gravity wave detectors	515
M. BOITEUX / Nonlocal hidden variables and nonlocal gauge theories	529
H.P. NOYES / A finite particle number approach to physics	537
INDEX	557
