CONTENTS

| | Introduction | 1 |
|-----|--|----------|
| I. | Null Experiments | 3 |
| | Eötvös Experiment | 3 |
| | Space Isotropies | 14 |
| | The Ether Drift Experiments | 22 |
| II. | Three Famous Tests of General Relativity | 25 |
| | The Gravitational Red Shift | 25 |
| | The Gravitational Deflection of Light | 27 |
| | The Perihelion Rotation of Mercury | 27 |
| | Cosmic Experiments | 29 |
| | References Appendices | 30 31 |
| | 1 | |
| | Appendix I — Experimental Tests of Mach's Principle Notes to Appendix I | 31 34 |
| | | 94 |
| | Appendix 2 — Mach's Principle and Invariance under Transformation of Units | 34 |
| | Invariance Under Transformations of Units | 35 |
| | Mach's Principle, expressed in Transformed Units | 37 |
| | Summary and Conclusion | 41 |
| | Appendix A | 42 |
| | Notes and References to Appendix 2 | 43 |
| | Appendix 3 — Long-range Scalar Interaction | 44 |
| | Notes and References to Appendix 3 | 47 |
| | Appendix 4 — Field Theories of Gravitation | 47 |
| | Appendix 5 — Cosmology, Mach's Principle and Relativity | 58 |
| | Physical Space | 60 |
| | Fields | 61 |
| | Cosmic Fields | 62 |
| | Cosmic Fields and Cosmology Steady State Cosmology | 67 70 |
| | Notes and References to Appendix 5 | 70 |
| | Appendix 6 — Significance of Spatial Isotrophy | 72 |
| | Notes and References to Appendix 6 | 76 |
| | xi | , 0 |
| | | |

| Appendix 7 — Mach's Principle and a Relativistic Theory | |
|--|--|
| of Gravitation | |
| Introduction | |
| A Theory of Gravitation Based on a Scalar Field in a Riemannian Geometry | |
| A Weak Field Approximation | |
| Static Spherically Symmetric Field about a Point Mass | |
| Mach's Principle | |
| Cosmology | |
| Acknowledgments | |
| Appendix | |
| Notes and References to Appendix 7 | |
| | |
| Appendix 8 — Lee-Yang Vector Field and Isotrophy of the | |
| Universe Notes and References to Appendix 8 | |
| | |
| Appendix 9 — The Earth and Cosmology | |
| Physical Framework | |
| Cosmology and the Scalar Field | |
| The Earth's Expansion | |
| The Earth's Magnetic Field | |
| Surface Temperature of the Earth | |
| References and Notes to Appendix 9 | |
| Appendix 10 — Implications for Cosmology of Stellar and | |
| Galactic Evolution Rates | |
| Introduction | |
| Stellar Evolution | |
| Ages of Stars | |
| Galactic Evolution | |
| Evolutionary Age of the Galaxy | |
| The Age of Uranium | |
| The Evolutionary Age of the Universe | |
| Cosmological Consideration | |
| Summary and Conclusion | |
| Acknowledgments | |
| References and Notes to Appendix 10 | |
| Appendix 11 — Dating the Galaxy by Uranium Decay | |
| Notes and References to Appendix 11 | |
| Appendix 12 — Dirac's Cosmology and the Dating of Meteorites | |
| Notes and References to Appendix 12 | |
| | |
