Preface	v
List of Contributors	xi
List of Illustrations	xiii
Acknowledgements	xvii
Chronological Biography	xix
Part I REMINISCENCES	
Albert Einstein 1879–1955	3
<i>C. P. Snow</i>	
Excerpts from a memoir	9
<i>Maurice Solovine</i>	
Einstein's friendship with Michele Besso	13
<i>P. Speziali</i>	
My meeting with Einstein at the Solvay Conference of 1927	14
<i>Louis de Broglie</i>	
Reminiscences of Einstein	18
<i>L. L. Whyte</i>	
Memoir	21
<i>John Archibald Wheeler</i>	
Anecdotes	23
<i>Philipp Frank</i>	
Memoir	24
<i>Edward Teller</i>	
Einstein	27
<i>Philippe Halsman</i>	
Reminiscence	29
<i>George Gamow</i>	
Memoir	31
<i>Ernst G. Straus</i>	

Contents

	Memoir	33
	<i>Eugene P. Wigner</i>	
	An Einstein anecdote	34
	<i>John G. Kemeny</i>	
	Einstein, Newton, and success	35
	<i>A. Pais</i>	
	Conversations with Albert Einstein	38
	<i>Robert S. Shankland</i>	
	Einstein and Newton	40
	<i>I. Bernard Cohen</i>	
	A tribute	43
	<i>Pablo Casals</i>	
	On Albert Einstein	44
	<i>J. Robert Oppenheimer</i>	
Part II	EINSTEIN AND HIS WORK	
1	Einstein—A condensed biography	53
2	Einstein and the birth of special relativity	65
	<i>Silvio Bergia</i>	
3	The story of general relativity	91
	<i>A. P. French</i>	
4	Relativity theory and gravitation	113
	<i>Hermann Bondi</i>	
	The equivalence principle demonstrated	
	The problem <i>Eric M. Rogers</i>	131
	The solution <i>I. Bernard Cohen</i>	132
5	Einstein and the development of quantum physics	133
	<i>Martin J. Klein</i>	
6	‘What, precisely, is “thinking”?’ Einstein’s answer	153
	<i>Gerald Holton</i>	
7	Einstein, science and culture	167
	<i>Boris Kuznetsov</i>	

8	Einstein and world affairs <i>A. P. French</i>	185
9	Einstein and Zionism <i>Gerald E. Tauber</i>	199
10	Einstein and the academic establishment <i>Martin J. Klein</i>	209
11	Einstein and education <i>Arturo Loria</i>	215
12	Philosophical concepts of space and time <i>Herbert Hörz</i>	229
	Einstein on postage stamps <i>E. J. Burge</i>	243
13	Approaches to the teaching of special relativity <i>Geoffrey Dorling</i>	245

Part III EINSTEIN'S LETTERS

Einstein writes to his best friend <i>P. Speziali</i>	263
Letter to Maurice Solovine, 7 May 1952	271
Exchange of letters with Niels Bohr	273
Letters to Max Born	275

Part IV EINSTEIN'S WRITINGS

On the electrodynamics of moving bodies	281
Geometry and experience	294
The cause of the formation of meanders in the courses of rivers and the so-called Baer's Law	298
Excerpts from <i>Ideas and Opinions</i>	302
Notes on the origin of the general theory of relativity	306
On the method of theoretical physics	310
On education	315

Contents

An elementary derivation of the equivalence of mass and energy	319
Short Bibliography	323
Index	325
