

## *Table of Contents*

Translator's Note	VI
Preface	VII
I Einsteinian Gravitation	1
II The Analytical Nature of the Equations of the Gravitational Motion of a Continuous Stress-free Medium	22
III Criteria of Approximation and Reduced Equations	38
IV Internal Stresses and their Possible Omission in the Present Approximation	61
V Reduction to Ordinary Differential Equations	67
VI The Two-Body Problem. Extension of the Elimination Principle to the General $n$ -Body Case	91
