

INDICE

Gruppo fotografico dei partecipanti al Corso	fuori testo
R. H. DICKE - Mach's principle and equivalence	pag. 1
D. R. BRILL - Review of Jordan's extended theory of gravitation	» 51
A. SCHILD - Gravitational theories of the Whitehead type and the principle of equivalence.	» 69
J. WEBER - Theory of methods for measurement and production of gravitational waves	» 116
F. HOYLE - Cosmological tests of gravitational theories	» 141
B. BERTOTTI - The theory of measurement in general relativity	» 174
H. BONDI - Gravitational waves.	» 202
T. E. CRANSHAW - The Mössbauer effect and experiments in relativity	» 208
J. V. NARLIKAR - Rotating universes	» 222
R. SEXL - Outline of W. Thirring's alternative approach to the theory of gravitation	» 228
H. YILMAZ - A theory of gravitation	» 233
H. YILMAZ - On color perception	» 239
C. MÖLLER - Tetrad fields and conservation laws in general relativity	» 252
