

# Contents

LIST OF CONTRIBUTORS . . . . .	v
PREFACE . . . . .	vii
CONTENTS OF OTHER VOLUMES . . . . .	xiii

## CHAPTER I

### **Lens Design**

*Rudolf Kingslake*

I. THE LENS DESIGN PROCESS . . . . .	1
II. THE DESIGNER'S TOOLS . . . . .	5
III. THE DESIGN OF A SIMPLE ACHROMATIC LENS . . . . .	20
IV. THE DESIGN OF A COOKE TRIPLET OBJECTIVE . . . . .	23
V. OTHER LENS TYPES . . . . .	26
VI. THE DESIGN OF ZOOM LENSES . . . . .	34
VII. AUTOMATIC IMPROVEMENT PROGRAMS . . . . .	39

## CHAPTER 2

### **Optical Manufacturing**

*R. M. Scott*

I. INTRODUCTION . . . . .	43
II. MATERIALS FOR LENSES AND MIRRORS . . . . .	46
III. OPTICAL WORKING . . . . .	58
IV. SURFACE INSPECTION . . . . .	82
V. CEMENTING . . . . .	83
VI. CYLINDERS . . . . .	84
VII. ASPHERICS . . . . .	87
VIII. MOUNTING OF OPTICAL ELEMENTS . . . . .	91
IX. LARGE OPTICS . . . . .	94

## CHAPTER 3

### **Photographic Objectives**

*G. H. Cook*

I. INTRODUCTION . . . . .	98
II. EARLY HISTORY AND EVOLUTION OF BASIC TYPES . . . . .	98
III. LATER DERIVATIVES FROM EARLY FORMS . . . . .	105

IV. SPECIAL OBJECTIVES . . . . .	118
V. COPYING OBJECTIVES . . . . .	123
VI. ANAMORPHOTIC SYSTEMS . . . . .	127
VII. VARIABLE FOCAL LENGTH AND ZOOM OBJECTIVES . . . . .	132
VIII. REFLECTING OBJECTIVES . . . . .	139
IX. OBJECTIVES WITH NONSPHERICAL SURFACES . . . . .	141
X. GENERAL BIBLIOGRAPHY . . . . .	143

## CHAPTER 4

### Microscope Objectives

*James R. Benford*

I. INTRODUCTION . . . . .	146
II. RESOLUTION . . . . .	146
III. NUMERICAL APERTURE . . . . .	149
IV. MAGNIFICATION . . . . .	151
V. COVER GLASS . . . . .	154
VI. DEPTH OF FOCUS . . . . .	157
VII. FIELD COVERAGE . . . . .	159
VIII. MICRO-OBJECTIVE IMAGE QUALITY . . . . .	159
IX. MOUNTING OF MICRO-OBJECTIVES . . . . .	163
X. OBJECTIVE TYPES . . . . .	167
XI. CHOOSING THE BEST OBJECTIVE . . . . .	180
XII. CARE OF OBJECTIVES . . . . .	181

## CHAPTER 5

### The Testing of Complete Objectives

*R. R. Shannon*

I. INTRODUCTION . . . . .	183
II. MEASURES OF IMAGE QUALITY . . . . .	184
III. VISUAL TESTING OF LENSES . . . . .	187
IV. IMAGE PHOTOMETRY . . . . .	204
V. PHOTOGRAPHIC TESTS . . . . .	224

## CHAPTER 6

### Spectacle Lenses

*Irving B. Lueck*

I. INTRODUCTION . . . . .	231
II. MATERIALS . . . . .	234
III. STOCK LENS SIZE AND SHAPE . . . . .	236

## CONTENTS

xi

IV.	AXIAL POWERS . . . . .	237
V.	LENS FORM AND THICKNESS . . . . .	240
VI.	THE DESIGN OF CORRECTED-CURVE LENSES . . . . .	243
VII.	MULTIFOCAL LENS TYPES . . . . .	247
VIII.	SAFETY LENSES . . . . .	252
IX.	OPHTHALMIC LENS MANUFACTURE . . . . .	254
X.	INSPECTION METHODS AND TOLERANCES . . . . .	264

## CHAPTER 7

### Mirror and Prism Systems

*R. E. Hopkins*

I.	INTRODUCTION . . . . .	269
II.	THE LAW OF REFLECTION . . . . .	270
III.	LOCATION OF THE IMAGE IN MIRROR SYSTEMS . . . . .	276
IV.	THE REFLECTION MATRIX . . . . .	284
V.	COMMON PRISM SYSTEMS . . . . .	296
VI.	CLASSIFICATION OF PRISMS . . . . .	302
VII.	PRISM DATA SHEETS . . . . .	306
VIII.	REFERENCES ON PRISMS . . . . .	306

## CHAPTER 8

### Mirror Coatings

*Georg Hass*

I.	INTRODUCTION . . . . .	309
II.	UNPROTECTED MIRROR COATINGS FOR THE ULTRAVIOLET, VISIBLE, AND INFRARED . . . . .	310
III.	MIRROR COATINGS WITH PROTECTIVE LAYERS AND REFLECTANCE- INCREASING SURFACE FILMS . . . . .	321
IV.	FILTER MIRRORS . . . . .	325
V.	REFLECTING COATINGS FOR THE VACUUM ULTRAVIOLET . . . . .	327

## CHAPTER 9

### Eyepieces and Magnifiers

*Seymour Rosin*

I.	MAGNIFYING POWER . . . . .	331
II.	TECHNIQUES OF VIEWING . . . . .	332
III.	DIOPTRAL CONSTANT . . . . .	332

IV. BEAM CROSS-SECTION AND OPTICAL MANUFACTURING REQUIREMENTS . . . . .	333
V. MAGNIFYING GLASSES . . . . .	334
VI. LOUPES AND EYEPIECES . . . . .	335
VII. GENERAL REMARKS ABOUT EYEPIECES . . . . .	337
VIII. NEGATIVE EYEPIECES . . . . .	358
IX. TELEMICROSCOPES . . . . .	359
X. EYEPIECE FORMS AS OBJECTIVES . . . . .	360
 AUTHOR INDEX . . . . .	 363
SUBJECT INDEX . . . . .	366
