

## CONTENTS

EDITOR'S FOREWORD .....	v
FOREWORD .....	xi
CHAPTER I. EMISSION FROM GASEOUS DISCHARGES .....	1
1. Excitation of Spectra .....	1
2. Basic Characteristics of Gaseous Discharge .....	12
3. Spectral Line Intensity .....	23
CHAPTER II. LIGHT SOURCES .....	31
4. Glow Discharge .....	31
5. High-Frequency Discharge .....	42
6. Pulse Discharges in Tubes with Internal Electrodes .....	52
CHAPTER III. SPECTROSCOPIC EQUIPMENT. PREPARA- TION OF STANDARD MIXTURES .....	57
7. The Vacuum Unit .....	57
8. Discharge Tubes .....	64
9. Preparation of Standard Mixtures .....	66
10. Preparation and Purification of Gases .....	75
11. Light Source Power Supplies for Spectroscopy of Gas Mixtures .....	78
12. The Spectroscopic System .....	85
13. Monochromatic Light Filters .....	97
14. Photoelectric Spectrometers .....	104
CHAPTER IV. METHODOLOGICAL PROBLEMS .....	127
15. Relationship between Line Intensity and Concentra- tion of an Element in a Mixture .....	127
16. Light Source and Analysis Conditions .....	131

17. Calibration Curves and Selection of Line Pairs for Analysis . . . . .	137
18. Analysis of Multicomponent Mixtures . . . . .	149
19. Microanalysis of Gases . . . . .	151
20. Analytical Accuracy and Sources of Error . . . . .	156
21. Evaluation and Improvement of Sensitivity in Gas Mixture Analysis . . . . .	165
CHAPTER V. VARIOUS METHODS OF ANALYSIS OF GAS MIXTURES . . . . .	
22. Qualitative and Semiquantitative Analysis of Gas Mixtures . . . . .	173
23. Quantitative Analysis of Binary Gas Mixtures . . . . .	182
24. Quantitative Analysis of Multicomponent Mixtures . . . . .	199
25. Analysis of Air . . . . .	206
26. Fast Analysis of Gas Mixtures . . . . .	218
27. Gas Mixture Analysis in Gas Discharge Tube . . . . .	225
28. Analysis of Gas Mixtures in Medicine . . . . .	227
29. Spectral Analysis of Isotopes . . . . .	228
CHAPTER VI. SPECTRUM ABSORPTION METHODS IN ANALYSIS OF GAS MIXTURES . . . . .	
30. General Description of Spectrum Absorption Methods . . . . .	241
31. Absorption in Excited Gases as a Basis of Analysis . . . . .	243
32. Infrared Absorption Analysis of Gaseous Mixtures . . . . .	250
33. Absorption Analysis of Gas Mixtures in the Ultra-violet . . . . .	259
APPENDICES . . . . .	263
REFERENCES . . . . .	291
INDEX . . . . .	311
