

TABLE OF CONTENTS

V. K. Prokof'ev. ANOMALOUS DISPERSION. I. RELATIONS BETWEEN THE DISPERSION CONSTANTS IN THE PRINCIPAL SERIES OF POTASSIUM . . . . .	1
V. K. Prokof'ev. ANOMALOUS DISPERSION IN VAPORS OF ALKALINE-EARTH METALS . . . . .	34
V. K. Prokof'ev. PROBABILITIES OF FORBIDDEN s, d-TRANSITIONS IN THE ATOMS OF THE ALKALI METALS . . . . .	48
A. N. Filippov. ANOMALOUS DISPERSION IN LITHIUM VAPOR . . . . .	53
A. N. Filippov. ANOMALOUS DISPERSION IN ZINC AND CADMIUM VAPORS	71
A. N. Filippov. TRANSITION PROBABILITIES FOR THE PRINCIPAL SERIES OF POTASSIUM . . . . .	76
I. I. Islamov and A. N. Filippov. RATIO OF THE OSCILLATOR STRENGTHS OF THE RESONANCE DOUBLET OF SILVER . . . . .	80
V. K. Prokof'ev and A. N. Filippov. TRANSITION PROBABILITIES FOR THE SUBSIDIARY SERIES OF THALLIUM . . . . .	82
V. K. Prokof'ev. ANOMALOUS DISPERSION IN POTASSIUM VAPOR AT HIGH TEMPERATURE . . . . .	93
V. K. Prokof'ev and G. Shtandel'. ANOMALOUS DISPERSION NEAR THE FIRST DOUBLETS OF THE PRINCIPAL SERIES OF RUBIDIUM AND CESIUM . . . . .	105
G. S. Kvater. ANOMALOUS DISPERSION IN THALLIUM VAPORS . . . . .	114
D. S. Rozhdestvenski and N. P. Penkin. DETERMINATION OF OSCILLATOR STRENGTHS IN ATOMIC SPECTRA . . . . .	127
N. N. Sobolev. MEASUREMENT OF RELATIVE TRANSITION PROBABILITIES FOR SOME LINES OF Bi I, Fe I AND Fe II . . . . .	133
G. S. Kvater. ABSOLUTE LINE INTENSITIES OF THE YELLOW DOUBLET OF SODIUM . . . . .	140
G. S. Kvater. ANOMALOUS DISPERSION IN THE VAPORS OF SODIUM AND THALLIUM . . . . .	142
N. P. Penkin. ANOMALOUS DISPERSION IN CHROMIUM VAPOR . . . . .	149
N. P. Penkin. MEASUREMENTS OF RELATIVE TRANSITION PROBABILITIES FOR CHROMIUM MULTIPLETS . . . . .	163

N. P. Penkin. INVESTIGATION OF THERMAL IONIZATION OF BARIUM VAPORS BY ROZHDESTVENSKII'S. HOOK METHOD . . . . .	172
N. N. Sobolev. THE PROBLEM OF MEASURING FLAME TEMPERATURES FROM ATOMIC LINE SPECTRA . . . . .	177
E. V. Zagoryanskaya. MEASUREMENTS OF RELATIVE TRANSITION PROBABILITIES FOR Cr II LINES AND DETERMINATION OF THE TEMPERATURE OF A CONDENSED SPARK BETWEEN STEEL ELECTRODES . . . . .	187
G. S. Kvater and T. G. Meister. ABSOLUTE TRANSITION PROBABILITIES FOR THE MEMBERS OF THE PRINCIPAL SERIES OF CESIUM . . . . .	191
L. A. Mitrofanova. A CURVE OF GROWTH FOR THE SUN ATMOSPHERE DETERMINED FROM LABORATORY INTENSITIES OF Fe I . . . . .	212
L. A. Vainshtein and B. M. Yavorskii. APPROXIMATE METHODS FOR THE CALCULATION OF OPTICAL TRANSITION PROBABILITIES . . . . .	267
A. B. Bolotin and A. P. Yutsis. APPLICATION OF THE MANY-CONFIGURATION APPROXIMATION IN THE DETERMINATION OF THE DIPOLE FORCE FOR Be-TYPE AND B-TYPE ATOMS . . . . .	271
M. G. Veselov. THE CALCULATION OF OPTICAL TRANSITION PROBABILITIES . . . . .	280
L. A. Mitrofanova. DETERMINATION OF THE gf-VALUES FOR CHROMIUM	285
L. A. Mitrofanova. DETERMINATION OF RELATIVE gf-VALUES FOR Ti I AND Ti II. . . . .	288
A. A. Nikitin and G. V. Gordienko. SOME ATOMIC PARAMETERS OF Ca II NEEDED IN ASTROPHYSICAL CALCULATIONS . . . . .	293
E. M. Anderson, Z. A. Buska, R. O. Grinberg and A. K. Saulgozha. OPTICAL TRANSITION PROBABILITIES FOR THE SUBSIDIARY SERIES OF SODIUM	296
G. I. Gol'dberg. TRANSITION PROBABILITIES FOR THE PRINCIPAL SERIES OF RUBIDIUM . . . . .	301
Ya. I. Vizbaraitė, A. I. Kantserovich and A. P. Yutsis. SELE-CONSISTENT FOK FIELD FOR EXCITED HELIUM ATOMS . . . . .	314
A. P. Yutsis, K. K. Ushpalis, V. I. Kavetskis and I. B. Levinson. TOTAL DIPOLE FORCE IN THE APPROXIMATION OF INCOMPLETE SEPARATION OF VARIABLES FOR TWO-ELECTRON ATOMS . . . . .	322
L. M. Biberman. DETERMINATION OF OSCILLATOR STRENGTHS BY DIRECT MEASUREMENT OF THE LINE WIDTHS OF A SOURCE OF FINITE OPTICAL DENSITY . . . . .	327

Yu. I. Ostrovskii. RATIOS OF f-VALUES OF THE LEADING MEMBERS OF THE DIFFUSE AND SHARP SERIES OF Al I . . . . .	330
Yu. I. Ostrovskii, and N. P. Penkin. ABSOLUTE OSCILLATOR STRENGTHS FOR THE LINES OF CHROMIUM, MANGANESE AND COPPER . . . . .	332
I. V. Gurvich. ON THE ABSOLUTE TRANSITION PROBABILITIES OF THE Tl ATOM . . . . .	343
V. N. Kolesnikov and L. V. Leskov. OPTICAL TRANSITION PROBABILITIES FOR ATOMS AND DIATOMIC MOLECULES . . . . .	347
O. A. Mel'nikov. COMPARISON OF MEASURED AND CALCULATED INTEN- SITIES OF IRON MULTIPLETS . . . . .	391
L. A. Mitrofanova. DETERMINATION OF RELATIVE gf-VALUES FOR Sr I AND Sr II . . . . .	407
A. L. Osherovich and I. G. Savich. MEASUREMENT OF LIFETIMES OF THE $3^3P$ AND $3^1P$ LEVELS OF THE HELIUM ATOM BY THE METHOD OF DELAYED COINCIDENCE . . . . .	410
Yu. I. Ostrovskii and N. P. Penkin. MEASUREMENTS OF ABSOLUTE OSCILLATOR STRENGTHS FOR Ga I AND In I LINES . . . . .	415
Yu. I. Ostrovskii and N. P. Penkin. RELATIVE f-VALUES FOR SPECTRAL LINES OF VANADIUM AND COBALT. . . . .	422
M. Z. Khokhlov. EXPERIMENTAL DETERMINATION OF THE OSCILLATOR STRENGTHS FOR THE Pb I LINES 4057 AND 3683 Å AND OF THE LEAD ABUNDANCE IN THE SOLAR ATMOSPHERE. Part I. Determin- ation of f-values from emission lines of a hollow cathode. . . . .	431
M. E. Boyarchuk and A. A. Boyarchuk. OSCILLATOR STRENGTHS DETER- MINED FROM STELLAR SPECTRA . . . . .	448
LIST OF RUSSIAN ABBREVIATIONS . . . . .	469
