

## CONTENTS

Investigation of Magnetic Moments in Metals by the Mössbauer Effect . . . . .	1
S. Hüfner and P. Steiner	
Spin Orientation Diagrams in Rare Earth Cubic Compounds . . . . .	11
U. Atzmony, M. P. Dariel, E. R. Bauminger, D. Lebenbaum, I. Nowik, and S. Ofer	
$^{57}\text{Fe}$ and $^{99}\text{Ru}$ Mössbauer Studies of the Defect Structure and Magnetic Properties of Oxide Phases . . . . .	27
N. N. Greenwood	
X-Ray Photoelectron Spectroscopy and Mössbauer Effect, Complementary Techniques for the Study of Solids . . . . .	41
G. K. Wertheim	
Consequences of Nuclear Transformations in Chemical Compounds Studied by the Mössbauer Method . . . . .	55
U. Zahn, W. Potzel, and F. E. Wagner	
The Application of Mössbauer Spectroscopy to Biochemistry . . . . .	79
C. E. Johnson	
Mössbauer Studies of an Enzyme System: Putidaredoxin and Cytochrome P450 . . . . .	89
P. G. Debrunner	
Interpretation of Mössbauer Isomer Shifts and Quadrupole Splittings of Ferrous Hemoglobins by Ligand Field and Molecular Orbital Theory . . . . .	101
A. Trautwein	

The Study of Inert-Gas Matrix Isolated Atoms . . . . .	117
P. H. Barrett and H. Micklitz	
A Study of the Mössbauer Effect for Gold . . . . .	127
L. D. Roberts, J. F. Prince, and D. J. Erickson	
Mössbauer Effect Studies of Phase Transitions . . . . .	141
G. K. Shenoy	
The Study of Vibrations in Crystals Using the Rayleigh Scattering of Resonant Gamma Rays . . . . .	171
D. A. O'Connor	
Mössbauer Studies of Aqueous Liquids and Glasses . . . . .	181
S. L. Ruby	
High-Resolution Mössbauer Spectroscopy with Tantalum-181 . . . . .	195
G. Kaindl and D. Salomon	
Experiments with the Mössbauer Effect in $^{67}\text{Zn}$ . . . . .	221
G. J. Perlow	
Mössbauer Effect - "Quo Vadis?" . . . . .	239
H. Frauenfelder	
List of Contributed Papers . . . . .	247
Index . . . . .	255
