

CONTENTS

VOLUME 1

General lectures and invited papers

Experiments and Correlations on Molecular Structure B. BAK	3
The Ultraviolet Spectra of Molecular Crystals D. P. CRAIG	16
Molecular Spectra in the Vacuum Ultraviolet G. HERZBERG	29
Infrared Spectra of Crystals J. A. A. KETELAAR	34
Rotatory Dispersion and the Vibrating Momentum of Optically Active Absorption Bands W. KUHN	35
Infrared Structural Studies Beyond Fifty Microns J. R. ARONSON, A. DANTI, W. LAFFERTY and R. C. LORD	49
Assignment of Infrared Bands and the Approximate Calculation of Normal Vibrations SAN-ICHIRO MIZUSHIMA	60
Experimental Determination of Raman Intensities R. R. BRATTAIN	72
Spettri Raman e Associazioni Molecolari Della Piridina in Soluzioni Diverse P. CHIORBOLI	73
Normal Vibrations of Aromatic Rings B. CRAWFORD JR., and S. CALIFANO	90
Infrared Spectra of Azothiobenzenes A. FOFFANI, G. LEANDRI, I. ZANON and C. CARPANELLI	91
Reflexionsspektroskopie und ihre Anwendungen G. KOETÜM	96
Mesures par Réflexion dans le Spectre Infrarouge J. VINCENT-GEISSE et J. LECOMTE	104
Quelques Progrès Récents dans l'Étude des Spectres Raman J. P. MATHIEU	121
Analytische Probleme der Ir-Spektroskopie R. MECKE	138

XX

Microwave Spectroscopic Studies of Near-Linear Molecules of the Type H ₂ XYZ	139
J. SHERIDAN	
The Electronic Spectra of Simple Molecules	148
A. D. WALSH	
The Analysis of Nuclear Resonance Spectra	160
J. S. WAUGH	

(I.) General theories on molecular spectra

Ultraviolet Emission Spectra of the Hydrogen Halides	176
R. F. BARROW	
Effects of Centrifugal Stretching on the Intensity of Rotational Lines in Water Vapor	176
W. S. BENEDICT	
Contributi ad uno Sviluppo Moderno del Concetto di Coordinazione	177
A. BERTOLUZZA ed A. MARINANGELI	
The Half-Life of the Metastable Level A ³ Σ of the Nitrogen Molecule	197
D. G. BILLS, N. P. CARLETON and O. OLDENBERG	
Automatische Molekülmodellrechnung mit der Perm	201
J. BRANDMÜLLER, E. W. SCHMID und E. WACHSMANN	
Calculation of the π Electron Energy of Aromatic Ions with an odd Number of Electrons. Some Remarks on the Jahn-Teller Effect	210
J. P. COLPA	
Relations entre les Fréquences de Vibration de Valence ν _{C=0} et la Structure Electronique des Composés Carbonylés	215
J. DESCHAMPS	
Polarizations of Electronic Transitions in Aromatic Hydrocarbon Molecules and Ions	216
J. DIELEMAN, G. J. HOIJTINK and P. J. ZANDSTRA	
The Spectra of Tetrahedral Inorganic Molecules	220
T. M. DUNN	
Application of the Orbital Valency Force Field to Allene, Ketene and Diazomethane	227
W. H. FLETCHER and C. E. BAILEY	
Coefficients d'Interaction entre la Vibration et la Rotation et Coefficients du Potentiel Anharmonique des Molécules à Symmetrie Axiale	236
L. HENRY	
Calcul Approché des Fréquences de Vibration Normales des Benzènes Monosubstitués à l'État Fondamental	237
A. KAHANE et J. KAHANE—PAILLOUS	
Accurate Theoretical Results for the Ground State of the Hydrogen Molecule	244
W. KOLOS and C. C. J. ROOTHAAN	

The Role of the Spin-Spin Interaction in the Multiplet Splitting of the $^4\pi$ State of the O ₂ Molecule I. Kovács	251
The Orientation of Electronic Transition Moments in some Anthraquinone Derivatives H. LABHART	255
Delta Function Model of Chemical Binding E. R. LIPPINCOTT and M. DAYHOFF	260
Spectres de Vibration du Méthanol et Calcul de son Champ de Force M. MACLOU	262
Calculation of some π -Electron States in Furan and Thiophene Using Valence Bond Approximation A. MANGINI and C. ZAULI	263
On the Application of the Additive Statistical Method for the Study of Fluorescent and Absorption Spectra P. G. MASLOV	266
Effective Charge and Ionicity of a Bond F. MATOSSI	288
The Calculation of Accurate Normal Coordinates I. M. MILLS	291
Un Metodo Approssimato per il Calcolo delle Frequenze di Vibrazione di Molecole Contenenti Gruppi Metilici P. MRONE	297
Ordre de Grandeur des Diverses Corrections à l'Énergie de Vibration-Rotation H. H. NIELSEN et G. AMAT	293
Band Shapes of Induced Rotational and Vibrational Spectra of Homonuclear Molecules E. E. NIKITIN	298
Hyperconjugation in Simple Hetero-Nuclear Molecules W. J. JONES and W. J. ORVILLE—THOMAS	305
Calcolo delle Perturbazioni Introdotte nello Spettro Ultrarosso dei Complessi del Tipo Me(CN) ₆ dalla Presenza di Isotopi e dal Campo Cristallino O. SALVETTI	308
Calcul de l'Influence des Effets de Dispersion sur le Déplacement de la Fréquence Fondamentale de Vibration de HCl en Solution F. SCHULLER, L. GALATRY and B. VODAR	310
Kraftkonstanten von Phosphorsäurederivaten berechnet nach einer Relaxationsmethode E. STEGER	311
Relations among Potential Energy Curves of Diatomic Molecules J. T. VANDERSLICE and E. A. MASON	323
Fonctions Potentielles de Vibration de quelques Molécules et Radicaux Libres A. VAN DE VORST et J. DUCHESNE	331

Force Field Calculations on a Number of Highly Symmetrical Molecules of General Formula $X_4Y_6Z_4$	345
D. H. ZIJP	

(II. 1.) u. v. spectra and emission spectra

The Spectroscopy and Photochemistry of Anthraquinone Dyes	
E. W. ABRAHAMSON and J. PANIK	354
Ultraviolet Emission Spectra of the Hydrogen Halides	
R. F. BARROW	363
Spettri di Assorbimento di Soluzioni di Sali Complessi. Nota III. Derivati del Molibdenottocianuro: $K_2Mo(CN)_2(OH)_2 \cdot 3H_2O$	
A. BERTOLUZZA, V. CARASSITI e A. M. MARINANGELI	364
L'Assorbimento nell'Ultravioletto di Molecole Contenenti l'Ossimmino- gruppo	
E. BORELLO	365
The Absorption Spectra and Photoionization of Polyatomic Molecules in the Vacuum Ultraviolet	
R. BRALSFORD, P. V. HARRIS and W. C. PRICE	373
Spettri U. V. E. I. R. diisossazoli	
S. CALIFANO, G. SPERONI e D. TAFURI	374
Emission Spectrum of Ionized Nitrous Oxide, N_2O	
J. H. CALLOMON	375
Spettri d'Assorbimento U. V. di Soluzioni di Sali Complessi	
V. CARASSITI e A. M. MARINANGELI	377
Triplet Transitions in Nitrogen	
P. K. CAROLL	387
Asymmetric Annellation Effects and the Energy Levels in the Acene Series	
E. CLAR	391
The Electronic Spectrum of Lead Telluride	
R. GROVE and N. GINSBURG	397
Effet de Monosubstitution sur les Spectres Électroniques du Benzène. Étude à l'État Gazeux	
J. KAHANE—PAILLOUS et S. LEACH	398
The Study of Pyridinium Iodide Charge-Transfer Bands	
E. M. KOSOWER and J. A. SKORCZ	413
Analysis of the Near Ultraviolet Absorption Spectrum of Pyrazine	
K. K. INNES and J. A. MERRITT	418
Effets de Milieux Rigides sur les Spectres Électroniques du Benzène	
S. LEACH et R. LOPEZ—DELGADO	419
Spettri in U. V. di Aril-Solfonati	
G. LEANDRI e D. SPINELLI	436

Fluoreszenzspektrum und Franck-Condon-Prinzip in Lösungen aromatischer Verbindungen E. LIPPERT, W. LÜDER und H. Boos	442
On the Transitions $n-\pi^*$ of Some N-Oxides of Heterocyclic Bases A. MANGINI and F. MONTANARI	457
The Rotational Structure of the Vibrationless Band in the $n \rightarrow \pi$ Electronic Transitions of Pyrazine and s-Tetrazine S. F. MASON	465
Spettri di Assorbimento di Composti Eterociclici G. MILAZZO	470
