INFRARED AND RAMAN SPECTROSCOPY

Spectral Properties of Carbonate in Carbonate-Containing Apatites	3
Racquel Z. LeGeros, John P. LeGeros, Otto R. Trautz, and Edward Klein	
Polarized Infrared Reflectance of Single Crystals of Apatites	13
Edward Klein, J. P. LeGeros, Otto R. Trautz, and Racquel Z. LeGeros	
Analytical Infrared Spectra of Particulate Alpha-Aluminas	23
Conrad M. Phillippi	
Analysis of Acrylonitrile–Butadiene–Styrene (ABS) Plastics by Infrared Spectroscopy	34
B. D. Gesner	
Design and Application of a High Temperature Infrared Cell for the Study of Polymeric Materials	43
W. R. Fearheller and W. J. Crawford	
Spectroscopic Studies of Hydrogen Bonding	54
C. N. R. Rao and A. S. N. Murthy	
Vibrational and Electronic Raman Effect	89
J. A. Koningstein	
Raman Spectroscopy of Polymeric Materials. Part I – Selected Commercial Polymers	94
Dorothy S. Cain and Albert B. Harvey	

INTERNAL-REFLECTION SPECTROSCOPY

Internal-Reflection Spectroscopy of Nonaqueous Solvent Systems: Halides in Liquid Sulfur Dioxide	111
D. F. Burow	

Application of ATR to Low-Temperature Studies	121
John W. Cassels and Paul A. Wilks, Jr.	
Characterization of Commercial Formulations by Combining Several Chromatographic Techniques with Multiple-Internal-Reflection and Mass Spectrometry	128
T. S. Hermann, R. L. Levy, L. J. Leng, and A. A. Post	

NUCLEAR MAGNETIC RESONANCE SPECTROSCOPY

A Comparative NMR Study	141
P. D. Klimstra and R. H. Bible, Jr.	
An NMR Study of Acrylic Polymers	147
Daniel A. Netzel	
The Use of Digital Computers for NMR Calculations	156
Milton I. Levenberg	
The Analysis of ABX Spectra	168
George Slomp	

SPECTROCHEMICAL APPLICATIONS TO TEXTILES AND FIBERS

Spectrochemical Elemental Analyses of Textiles and Textile Fibers	203
Robert T. O'Connor	
The Applications of Infrared Spectroscopy in the Investigation of Cotton	228
Elizabeth R. McCall	
Spectroscopy and Computer Dyeing	252
Braham Norwick	
The Application of Internal Reflection Spectroscopy to the Quantitative Analysis of Mixed Fibers	280
P. A. Wilks, Jr. and J. W. Cassels	
Index	289
