

Contents

Part I Measurement of the Properties of Millimetre and Submillimetre Lasers

1. Introduction	2
References	5
2. Molecular Spectroscopy and Line Identification	7
References	15
3. Wavelength and Frequency Measurements	17
References	26
4. Power Measurements	28
References	35
5. Pump Lasers	38
References	45

Part II A Compilation of cw (Sub)millimetre Laser Lines

6. General Notes	48
7. Table A. Wavelength-Sorted Data	51
8. Table B. Data Arranged by Molecule	170
9. Table C. Partnerless Lines	229
10. Molecule Codes	255
10.1 Listing by Code	256
10.2 Alphabetical Listing of Molecule Names	259
11. Reference Database	263
Subject Index	275
