<b>PREFACE</b>	<b>v</b>
<b>ACKNOWLEDGMENTS</b>	<b>vi</b>
<b>1 INTRODUCTION TO LASER SAFETY AND HAZARDS</b>	<b>1</b>
Why Concern?	1
Protective Standards for Eye and Skin Exposure	2
Evaluation and Control of the Laser Hazard	2
Summary	3
<b>2 BASICS OF LASERS</b>	<b>4</b>
Introduction	4
Electron Energy Levels	4
Spontaneous and Stimulated Emission	6
Elements of a Laser	7
Continuous Wave and Pulse Type Lasers	9
Q-Switching	9
Properties of Lasers	10
References	10
Bibliography	11

**x CONTENTS**

<b>3</b>	<b>BIOLOGICAL EFFECTS OF LASER RADIATION</b>	<b>12</b>
	Introduction	12
	Description of the Eye	13
	Tissue Damage Mechanisms	14
	Factors Contributing to Tissue Injury	16
	The Eye Hazard	20
	The Skin Hazard	21
	References	24
<b>4</b>	<b>ASSOCIATED LASER HAZARDS</b>	<b>25</b>
	Introduction	25
	The Electrical Hazard	26
	Airborne Contaminants	30
	Cryogenic Liquids	30
	Noise Hazard	32
	Ionizing Radiation	33
	Non-Laser Beam Optical Radiation Hazard	33
	Explosion Hazard	33
	Fire Hazard	33
	References	33
	Bibliography	34
<b>5</b>	<b>LASER MEASUREMENTS</b>	<b>35</b>
	Introduction	35
	Laser Output Energy and Power	35
	Laser Pulse Width	40
	Irradiance and Radiant Exposure	43
	Beam Distribution	43
	Beam Divergence	47
	Pulse Repetition Rate	48
	Measurement Device Examples	48
	References	49
	Bibliography	49
<b>6</b>	<b>PROTECTIVE STANDARDS</b>	<b>50</b>
	Introduction	50
	Intrabeam and Extended Source Exposure Considerations	51
	Intrabeam Viewing—Maximum Permissible Exposure (MPE)	55

Extended Source Viewing—Maximum Permissible Exposure (MPE)	61
Maximum Permissible Exposure (MPE) for Skin Exposure to a Laser Beam	67
MPE Correction Factors and Special Handling Techniques—Visible and Near Infrared	67
Determination of MPE for Repetitively Pulsed Lasers	69
MPE Correction Factors—Infrared	73
Formulas, Considerations and Examples Useful in Evaluation of Various Laser Applications	83
References	91
Bibliography	91
 <b>7 LASER BEAM HAZARD EVALUATION AND CLASSIFICATION</b>	 92
Introduction	92
Laser Classification Considerations	93
Laser Classification Definitions	94
Central Beam Irradiance or Radiant Exposure	99
Examples of Laser Classification	100
The Laser Environment	104
The Personnel Present in the Laser Environment	106
References	107
Bibliography	107
 <b>8 CONTROL OF LASER RADIATION HAZARD</b>	 108
Introduction	108
Class I—Exempt Laser Control Measures	110
Class II—Low Power Laser Control Measures	110
Class III—Medium Power Laser Control Measures	111
Class IV—High Power Laser Control Measures	118
Class V—Enclosed Laser Control Measures	121
Infrared Lasers—Special Control Measures	121
Ultraviolet Lasers—Special Control Measures	123
Field and Airborne Lasers—Control Measures	123
Laser Protective Eyewear	128
Warning Signs and Labels	128
Alteration of Output Power or Operating Characteristics of Laser	131
References	131
Bibliography	131

**xii CONTENTS**

<b>9 CONTROL OF ASSOCIATED LASER HAZARDS</b>	<b>133</b>
Electrical Hazard Controls	133
Control of Airborne Contaminants	138
Control of Cryogenic Liquids Hazard	139
Control of Noise Hazard	140
Control of Ionizing Radiation Hazard	140
Control of Non-Laser Beam Optical Radiation Hazard	140
Control of Explosion Hazard	141
Control of Fire Hazard	141
References	141
Bibliography	142
<b>10 PUBLIC LAWS</b>	<b>143</b>
Introduction	143
Federal Laser Safety Legislation	144
State Laser Safety Legislation	193
References	219
<b>11 LASER SAFETY PROGRAM</b>	<b>220</b>
Introduction	220
General Guidelines for Organization of Laser Safety Program	221
Laser Safety Training Programs	228
Audio/Visual Sources for Training Programs	228
References	233
<b>12 SAFETY IN CLASSROOM LASER USE</b>	<b>234</b>
Introduction	234
Safety Aids	235
References	240
<b>13 MEDICAL SURVEILLANCE</b>	<b>241</b>
Introduction	241
Personnel Risk Classification	242
Types of Eye Examinations	243
Skin Surveillance Requirements	244
Recommended Medical Examination Requirements	246
Frequency of Medical Examinations	247

References	247
Bibliography	247
<b>14    LASER PROTECTIVE EYEWEAR</b>	<b>248</b>
Introduction	248
Factors in Selecting Protective Eyewear	248
Identification of Eyewear	262
Inspection of Eyewear	262
Types of Protective Eyewear	263
Responsibility of Manufacturer	263
Broadband Development	263
References	265
<b>15    ATMOSPHERIC EFFECTS</b>	<b>267</b>
Introduction	267
General Atmospheric Effects	267
Basic Formula	270
Specular Reflections	273
Diffuse Reflections	274
References	275
Bibliography	275
<b>Appendix A    DEFINITIONS/LASER TERMINOLOGY</b>	<b>277</b>
<b>Appendix B    NEW YORK STATE INDUSTRIAL CODE RULE 50,                     "LASERS"</b>	<b>303</b>
<b>Appendix C    CLASS LEVEL OF ACCESSIBLE LASER                     RADIATION</b>	<b>329</b>
<b>INDEX</b>	<b>341</b>
