

CONTENTS

VOLUME 3A

Contents of Volume 3B	xiii
---------------------------------	------

I. HIGH POWER LASERS

Futurology of High Intensity Lasers (Keynote Address)

E. Teller	3
---------------------	---

Electron Beam Controlled CO₂ Lasers at Los Alamos

K. Boyer and R. Cooper	11
----------------------------------	----

High Power UV-Preionized CO₂ Lasers

M. C. Richardson	39
----------------------------	----

Review of CW High-Power Laser Technology

W. G. Burwell	63
-------------------------	----

On the Feasibility of Nuclear Pumping of Gas Lasers

R. T. Schneider	85
---------------------------	----

Comparison of Direct and Discharge Pumping in CO₂ Lasers

W. A. Proctor and G. H. Canavan	109
---	-----

High Power Chemical Lasers: Problems and Perspectives

K. L. Kompa	115
-----------------------	-----

The Iodine Laser, a High Power Gas Laser

K. Hohla	133
--------------------	-----

Damage Constraints in the Design of High Energy Lasers for Fusion Applications A. J. Glass and A. H. Guenther	149
Summary of Discussions and Comments	171
II. MEDIUM INTENSE LASER PLASMA INTERACTION	
Laser Absorption Waves in the Atmosphere P. E. Nielsen and G. H. Canavan	177
Interaction of High Power Pulsed CO ₂ Lasers with Solid Targets P. E. Dyer, D. J. James, G. J. Pert, S. A. Ramsden, and M. A. Skipper	191
Measurements of Spontaneous Magnetic Fields in Laser-Produced Plasmas F. Schwirzke	213
Theory of Magnetically Induced Rotation and a Dynamo Effect in Laser Plasmas E. A. Witalis	237
Microwave Studies of Magnetically Induced Counterstreaming Interactions in Laser-Produced Plasma A. Y. Cheung	251
Summary of Discussions and Comments	263
III. THEORY OF INSTABILITIES AND NONLINEAR PROCESSES	
Laser-Induced Instabilities and Anomalous Absorption in Dense Plasmas D. F. DuBois	267
Physical Mechanisms for Laser-Plasma Parametric Instabilities F. F. Chen	291
Striated Jets and Anomalous Absorption Due to Nonlinear Ponderomotive Forces in Laser-Produced Plasmas H. Hora	315
Nonlinear Behavior of Light-Driven Plasma Instabilities W. L. Kruer, K. G. Estabrook, and J. J. Thomson	341

CONTENTS OF VOLUME 3A

xi

Laser-Induced Coherent Decay of Photons for Plasma Heating P. L. Mascheroni	359
Symmetry of Laser-Drive Implosions D. B. Henderson and R. L. Morse	381
Summary of Discussions and Comments	393
Author Index	xvii
Subject Index	xlvi
