

# CONTENTS

## I. Electrostatic Precipitation

Electrostatic Precipitators in Modern Power Plant .....	3
K. Darby	
Pulsed Energization of Electrostatic Precipitators—A Review of Worldwide Experience .....	9
K. Porle	
Applications of Electrostatic Precipitator with the Intermittent Energization .....	14
N. Tachibana and H. Fujishima	
Advanced Electrostatic Applications to Flue Gas Cleaning .....	20
M. Rea	
Electron Irradiation of Flue Gas by Pulsed Corona for Sulfur and Nitrogen Oxide Reduction .....	23
S. Oglesby Jr. and E.B. Dismukes	
Discussion on the Correction Formula for Deutsch Formula Related to Collection Efficiency of an Electrostatic Precipitator .....	24
K. Fujimura, T. Adachi and M. Akazaki	
Similarity Phenomena of Electrohydrodynamic Flow Field Inside ESP .....	28
T. Adachi, T. Ohkubo, Y. Nomoto, J.S. Chang and M. Akazaki	
Study on Collection Theory of Electrostatic Precipitators .....	32
F.C. Xiao and G.Q. Zhang	
Electrostatic Enhancement of Particle Collection in Fiber Filters .....	37
F. Löffler	
A Research on the Mechanism of Dust Collection in Electrostatic Lentoid Fields .....	41
X.G. Chen, H.F. Huang and J.Y. Mao	
A Study of Numerical Simulation for Gas Flow Distribution in the Inlet to Roof Mounted Electrostatic Precipitator .....	45
Y.S. Liu, R.Y. Chen and D.G. Zhang	
Experiment on Electrostatic Precipitator with Application of Ultrasonic Agglomeration .....	49
T. Nakane, T. Hirata and K. Seya	
Preliminary Study on the Collection of Fine Particles by Charged Drops .....	53
T.Y. Tan and L. Zhang	
Pulse Energised Electrostatic Precipitator with Transverse Louvers—A Dust Collection Technique for Fluidized-Bed Boiler .....	57
L.M. Liu, R.Y. Wang, Y. Wu, X.L. Wang, J.M. Hu et al.	
Field Analysis in Electric Precipitators .....	59
Z.H. Fang, X.Y. Gu and N. Dai	

Research on the Distribution of Electric Field in Electrostatic Precipitator (ESP) .....	63
Z.F. Wu and G.Q. Zhang	
A Study on Two-Dimensional Electric Field Strength and Current Density in Electrostatic Precipitator .....	66
H.D. Zhang and J. Wang	
Study on Electrode Geometries and Configurations of Wire-Plate ESP by Electric Field Strength Near the Profiled Collecting Electrodes .....	71
R.S. Guo and H.D. Zhang	
Simulating Calculation for Electric Field Strength Distributions of Electrostatic Precipitators .....	75
J.M. Hao, K.B. He and H.X. Chao	
Experimental Study of Optimum Wire Spacings at Different Plate Spacings of EP .....	79
X.L. Gao, Z.G. Hu, M.Y. Hu, J. Yan and L. Li	
Discharge Performances Study of Corona Wires in Electrostatic Precipitators .....	83
M.Y. Hu, X.L. Gao, Z.G. Hu and Q.S. Huang	
An Attempt to Use Specific Collecting Volume as a Modular Number for ESP Performance Comparison .....	87
X.Z. Yan and J. Wang	
TSDC Measurements of Coal Fly Ashes .....	93
T. Oda, T. Takahashi and S. Masuda	
Advanced Analysing Model of Charge Carrier Motion Around a Charged Spherical Object .....	97
S. Sumiyoshitani, M. Hara and M. Akazaki	
Specific Surface Charge Density of Non-Spherical Particle and Charge Decrease by Partial Self-Discharge in High Electric Field Intensity .....	101
P. Isahaya	
Super-High Pulse Voltage Electrostatic Precipitator .....	105
R.Y. Wang, L.M. Liu, Y. Wu, D.W. Sun, Z.G. Yu, D.Q. Zhong, B. Xia and X.L. Wang	
The Correct Diagnosis and Optimum Disposal of Flashover Signals in Electrostatic Precipitators .....	108
W.X. Wang, Y.B. Jiang and R.H. Wang	
Pulse Energization on ESP for the End of Sinter Band .....	112
W.M. Zhang and P. Elholm	
Using Spark Discharge for Ash Removal—Breaking off Agglomerates By Sparks .....	115
K.J. Li	
The Influence of Electrode Coating on Corona Discharge in Electrostatic Precipitators .....	118
X.M. Huang, H.Z. Zhao and H.H. Zeng	
Relation Between Spacing of Prickle Electrodes and Corona Current .....	122
X.S. Li, S.Z. Xu, Z.W. Zhang and F.H. Li	
Progress in Dust Collection by Electrostatic Precipitation in View of Gaseous Pollutants Removal .....	126
G. Mayer-Schwinning	
<b>II. Electrostatic Biological Effects</b>	
Applications of Electrostatic Technology in Agriculture .....	129
S.E. Law	
Are Air Ions Biologically Significant? .....	134
N.J. Felici	
The Effects of the Electric Field on Plant Growth .....	137
C. Kazimierz and B. Piotr	

Effects of High-Voltage Electrostatic Field on Growth in Plants .....	140
J.M. Ye, T.S. Gao, L. Ge, H.L. Zhou and J.F. Zhang	
Experimental Study on Promotion of Plant Growth By Electrostatic Field .....	144
L. Yan, X.Y. Bai, X.L. Li, A.C. Ma, X.C. Meng and Q.Z. Wang	
Effect of Static Electricity on Initial Growth of Panax Ginseng .....	148
S.Z. Huang, J.X. Yan and S.Z. Xu	
The Influence of HV Electrostatic Field on the Root System of Plants and Absorbing Nutritive Elements .....	151
R.Y. Wang and X.W. Wang	
Biological Potential in Plant and External Electrostatic Field .....	155
S.Z. Xu, S.Z. Huang and Z.H. Dong	
Separation and Biostimulation of Soybeans Using High-Intensity Electric Fields .....	158
R. Morar, Al. Iuga, L. Dascalescu, V. Neamtu and I. Munteanu	
Physiological and Biochemical Experiments in Electrostatic Treated Seeds .....	161
X.Y. Bai, A.C. Ma, J.R. Ma, X.L. Li, L. Yan and Q.Z. Wang	
Study on Biological Effect of Seeds in Electrostatic Treatment .....	166
X.Y. Bai, L. Yan, Z.L. Chen, X.L. Li, J.R. Ma and Q.Z. Wang	
Study on the Total Activity of Amylase of Sprouting Maize Seeds Affected By Treatment of Electrostatic Field .....	170
J.R. Ma and B. Zhang	
A Preliminary Study of the Biological After-Effect on Crop Seeds Treated By Uniform Electrostatic Field .....	174
Y.Z. Liang, X.M. Shi and T.Q. Yang	
A High-Pressure Shock Sterilizing Technique .....	176
X.Y. Bai, T.M. Chen, J. Wang, M.Z. Fu and Y. Xu	
Observation of Changes of Some Biological Indices in Patients with Occupational Leukopenia Before and After the Negative Air Ion Therapy .....	180
W.M. Li, A.B. Li and J.M. Zhang	
Effect of Negative Ions on Spontaneous and Cyclophosphomidum-Induced Micronucleus Frequency in Mouse Bone Marrow Polychromatophilic Erythroblasts .....	183
L. Xie, J.H. Yin, Y.C. Wang and Y.P. Song	
Treatment for Tissue Injury By Use of Micro-Porous Polymeric Electret Film .....	186
C.M. Sun, M. Cui and H.S. Zhu	
Electrically Stimulated Bone Growth by Electret Film .....	193
G.G. Zhang, S.T. Wang and H.K. Zhang	
Acute Experimental Results of Effects of High-Voltage Electrostatic Field on Animal Organisms .....	196
J.M. Ye and R.Y. Wang	
 <b>III. Novel Electrostatic Techniques and the Prospects of Industrialization</b>	
Corona-Electrostatic Separation Processes for Recovery of Conducting and Insulating Materials From Industrial Wastes .....	203
L. Dascalescu, R. Morara, Al. Iuga, V. Neamtu and I. Csorvassy	
Electrostatic Particle Levitation on a Quadrupole System .....	207
B. Makin, and D. Hu	
Experimental Study on a New Type Electrostatic Separating Device .....	212
W.G. Dou, G.H. Hao, F. Zhang and B.J. Liu	

Study on Dielectrophoretic Oil Purification Technique .....	215
X.Y. Bai, M.X. Huang, D.F. Ren, W. Ning, S.Z. Yan and S.L. Man	
Electrostatic Separation of Fine-Graded Talcum Powder Minerals .....	219
J.Z. Wang, X.Y. Bai, Y.C. Liu, S.Z. Yan and S.L. Man	
Industrial Pilot Test of Electrostatic Purification Technology for Dry-distillated Shale Gas .....	221
Y. Wang, S.Z. Wang, R.F. Cai, Y.M. Wang and M.Q. Dai	
Electrostatic Separation of Fibre and Metal From Rubber Powder .....	224
Y.C. Liu, S.Z. Yan, D.F. Ren and S.L. Man	
Using Electrostatic Bonding on Semiconductor Devices Technology .....	227
B.X. Xie	
Technology Development and Mechanism Research of Electrostatic Spinning .....	229
Q. Zhang	
The Basic Principle of Electrostatic Powder Coating .....	232
S.Y. Zhou	
Studies on Artificial Curing of White Spirit By Means of Ultrahigh Voltage (UHV) Electrostatic Field .....	236
X.S. Guan, Q.W. Sun and S.C. Guo	
Effect of Electrostatic Field on Liquid Surface Tension .....	239
F.S. Xian and J.Q. Zheng	
<b>IV. Fundamentals of Electrophotography</b>	
Color Copy Machine .....	245
T. Takahashi	
Novel Organic Photoreceptor Using Organopolysilanes .....	247
K. Yokoyama, M. Yokoyama, M. Fujino and N. Matsumoto	
Transport Properties of Copper Phthalocyanine .....	251
X.F. Jin, S.Q. Zhou, Y.Q. Wang, J.B. Qiu and D.Y. Ren	
The Residual Potential of Xerographic Materials As-Se .....	255
S.K. Min, G.C. Zhang, L.R. Chen and F.Z. Zhang	
A Measuring Method of Electrophotographic Toner Charge .....	258
N. Kutsuwada and Y. Nakamura	
The Influence of As <sup>+</sup> Ion Implantation on the Optical and Electrophotographic Properties of Amorphous Se Photoreceptor .....	265
Y.Y. Wang	
Advanced Technology of Electrophotography in Japan .....	268
K. Koda	
The Surface and Interface of $\alpha$ -Se Film Studied by XPS .....	271
H.Y. Li, X.H. Deng, G.M. Zhang and G.R. Zhong	
Ion Flow Control Technology and Its Applications .....	275
Y. Hoshino, M. Ohta, T. Tanaka, M. Omodani and S. Shiwa	
<b>V. Measurement Techniques in Applied Electrostatics and Electrostatic Source</b>	
Development of High Temperature Farady Cups for In-Situ Measurements of Powder Surface Charge Under Thermal Plasma-Powder Flow .....	281
J.S. Chang, T.G. Beuthe, N. Hayashi, M. Keila and F.Y. Chu	
Resistivity Measurements of Dielectric Films in Ion-Rich Atmosphere .....	285
T. Oda and T. Takahashi	
Electrostatic Measurements by Means of Microwaves .....	289
G.R. Chen and C.J. Guo	

Improving the Resolution of Surface Charge Density Measurement .....	293
Y.W. Zhang and Y.N. Liu	
Field Calculation in Ring-Type Electrode Capacitance Transducer for Particle Fraction Measurements .....	297
N. Hayashi, M. Matsuuchi and Y. Yokoi	
The Principle of Optical Phase Compensation--A New Method for Measuring Electrostatic Field By Means of Pockels Device .....	301
P. Zhang, Z.H. Ge and T. Lin	
The Study of Powder Electrostatic Accumulation Test Device .....	304
Y.Y. Liu and C.Y. Wang	
On Resistivity Measurement of Conductive Sponge .....	308
L.H. Xu, D.T. Wei, D.D. Zou, Y.M. Li and A.M. Wan	
A New Method for Measuring Charge Density in an Oil-Piping System .....	310
W.Y. Hao, J.Y. Chen and F.G. Tan	
Study on Decay Characteristics for Static Electricity on Both Conductive and Anti-Static Materials .....	312
J.X. Chen	
The Realization of Superhigh Voltage Pulse with Multiplying Circuit .....	316
Q. Wang and R.Y. Wang	
Research on the High Voltage Multiplying Circuit with Arbitrary Capacitance .....	319
Q. Wang and R.Y. Wang	
High Voltage Modulating Pulse Electrostatic Power and Its Application in Electrostatic Demulsification .....	322
Z.L. Feng, X.D. Wang and X.J. Zhang	
 <b>VI. Fundamental Research of Static Electrification and Discharge</b>	
Contact Electrification Between Metals and Polymers: Effect of Surface Oxidation .....	327
Dan A. Hays	
Observation of Local Discharge Phenomena on Charged Surface of Dielectric Films .....	331
T. Oda and M. Yanagida	
Experimental Search for Free Quarks in Matter .....	335
C.D. Hendricks and R.S. Hornady	
Separating Discharge in Film/Roller System .....	339
X.G. Ji, Y. Komai, Y. Takahashi and S. Kobayashi	
Charge Transport Processes at Corona-Charged Polymer Film Surface .....	343
B.T. Yang and Y.N. Liu	
Calculation of the Onset Voltage of Streamer From a Grounded Hemispherically Capped Cylinder to Negative Well-Charged Dielectric Plate .....	347
Z.Q. Ni	
Standing Ionization Wave in the Positive Column of Glow Discharge of Oxygen .....	350
J.L. Chen and R.N. Li	
The Effects of Small Isolated Conductor on Propagating Brush Discharge .....	354
G.X. Li	
On the Problem of Charge Distribution on a Conductor and the Calculation of Geometric Factor of an Emitting Cathode .....	357
P.L. Lee	

Research and Simulated Test on Space Electrostatic Field .....	360
H.C. Luo, X.L. Zhong, J.G. Xiong, Z.Y. Zhou and L.Q. Wang	
A Method of Numerical Analysis and Calculation of Streaming Current By a Hopping Model .....	364
F. Zhou, Z.H. Wu and G. Touchard	
Research on Electric Field in Storage Tank with Numerical Method .....	368
Y.Q. Yang and L.Q. Zhao	
Electronic States and Contact Charging of Polymers .....	371
Y. Murata	
 <b>VII. Electrostatic Pollution in Electronic Industries</b>	
Electrostatic Pollution and Control Technology in Super Clean Rooms .....	377
D. Cucu	
Fundamentals of Static Control for the Electronics Industry .....	379
G.R. Berbeco	
Reliability Study on MOS Electrostatic Protection from Charge on Human Body .....	385
H. Xia and J.Y. Liu	
 <b>VIII. Electrostatic Hazards in Petro-Chemical Industries and the Prevention Measures</b>	
Relaxation Time of Electrified Petroleum Surface Potential in Storage Tanks with Different Capacity .....	391
N. Kitamura, I. Fushimi and M. Ueda	
Techniques of Anti-Electrostatic Hazard of the Petrochemical Industry in China and Outlook .....	395
S.L. Wang, C.G. Dong, J. Yang, G.C. Song and Z.J. Bi	
Static Electrification Due to Liquefied Natural Gas Flows .....	400
G. Touchard, P. Humeau, L. Marciano, Z.H. Wu, J. Borzeix, J.P. Nossent and S. Watanabe	
Relationship Between Additive Concentration and Streaming Current .....	404
S. Watanabe, M. Fujii, K. Tanabe, A. Ohashi, Z.H. Wu, M. Benyamina and G. Touchard	
A Study on the Safe Potential of Charged Hydrocarbon Oils .....	407
J.B. Qu and M.F. Lu	
Safety Surface Potential for Hydrocarbon Products .....	411
C.Y. Shi, W.J. Liang, G. Pan and T. Tao	
Effect of Material Surface Character on Electrification of Fuel Oil .....	415
F.G. Tan and C.G. Dong	
 <b>IX. Electrostatic Hazards and the Prevention Measures</b>	
Electrostatic Hazards of Explosive Articles and the Control Measures .....	423
G.S. Zhang	
Applications of Electrically Conductive Fibers to Electrostatic Safety .....	427
Y. Tabata and Y. Matsuo	
Control of Incendiary Discharges Occurring from Electrostatic Eliminator .....	431
Y. Tabata, T. Suzuki and S. Kamachi	
A Study on Incendivity of Discharge from Charged Insulating Plate with Different Electric Polarities .....	435
J.L. Chen and L.Z. Zhao	

Simulated Electrostatic Test for the Fuel Tank of Q-6 Pursuit .....	439
H.C. Luo and L.Q. Wang	
The Research on Electrostatic Spark Sensitivity in Suspending Black Powder Dust .....	443
C. Qian, G.R. Wu and X.L. Ren	
The Problem Concerning How to Analyse and Identify the Electrostatic Explosion Accident .....	447
D.L. Zhong and L.Z. Zhao	
Electrostatic Shielding Effect of Box Wagon for Ammunition .....	451
Y.F. Yu, H.N. Li and C.G. Li	
Static Electricity of Human Body .....	454
L. Ke	
Evaluation of the Safety Property on Tankers During the Drainage of Ballast Water .....	457
K.P. Sun	
The Relation Between Aircraft Precipitation Static Electricity and Flight Environment .....	461
H.Z. Zhang	
Experimental Study of the Electrostatic Accumulation of Explosive Powders .....	465
C.Y. Wang, Y.P. Chi and Y.Y. Liu	
Dangers from Static Electricity in Black Powder Production and Its Countermeasures .....	468
W.L. Wang	
The Safety Electrostatic Potential of Non-Incendiary Discharges from Charged Insulator .....	472
J.S. Huang and L.Z. Zhao	
The Principle and Application of a Ion Source Static Eliminator .....	475
H.Y. Zhang	
Po-210 Static Eliminator and its Industry Application .....	477
S.Y. Cai, Z.H. Zhou, S.Q. Mao and S.Z. Sun	
Study on the Critical Voltage and Electrostatic Elimination in Release of Hydrogen .....	481
J.T. Liu and B. Liu	

#### **X. Electrostatic Materials**

The Research, Development and Application of Electrically Conductive Fibre .....	489
M.X. Shen, M.H. Chen, S. Zhang and S.X. Jiang	
The Studies of the Properties of PVC Conducting Plastic and Its Application .....	492
X.Z. Wu, J.L. Cheh, X.Z. Liu and W.B. Liu	
Use of Piezo-Sensitive Material to Make Anti-Static Detonators .....	495
X.R. Li, F. He and C.Z. Lu	
Research on Antistatic Pressure-Sensitive Materials .....	498
C.Z. Lu	
A Study on Using Radiative Effect to Improve the Electrostatic Properties of Polymer Surface .....	502
S.H. Liu, Z.C. Liu, B.X. Zhai, G.H. Wei and L.Z. Zhang	

#### **XI. Ozone Techniques**

Quick Disinfection of Handpiece in Dental Use .....	507
S. Masuda, E. Kiss, K. Ishida and H. Asai	

Experimental Study of Improvement in Ozone Yield in a Parallel Plate Ozonizer with a Rotating Plate Electrode .....	513
Y. Nomoto, T. Ohkuho, T. Adachi, J.S. Chang and M. Akazaki	
Investigation of Discharge Current of Surface Discharge Type Ozoniser .....	517
E. Kiss and S. Masuda
