

CONTENTS

I. <i>Foundations</i>	1
1.1 Introduction	1
1.2 Units and Notation	1
1.3 Maxwell's Equations	3
1.4 Constitutive Relations at a Point	4
1.5 The Polarization of a Wave	6
1.6 Expressions for the Refractive Index	7
1.7 Stratified Media. The Booker Quartic Equation	9
1.8 Constitutive Relations Which Depend on Spatial Variations	11
1.9 Effect of Electron Temperature on Collisions	12
1.10 Wave Interaction	12
1.11 Plasma Waves	13
II. <i>Rays and Wave Packets</i>	15
2.1 Introduction	15
2.2 The Poynting Vector	16
2.3 Group Velocity	17
2.4 Angular Spectrum of Plane Waves	20
2.5 Wave Packets	22
2.6 Refractive Index Surface and Ray Surface	23
2.7 Comparison with Crystal Optics	25
2.8 Principal Axes	26
III. <i>Impulses and Dispersion</i>	28
3.1 Introduction	28
3.2 Impulse Response and Transfer Function	28
3.3 The Refractive Index as a Function of Frequency	30

3.4	Statement of the Problem	36
3.5	Dispersion Relations	37
3.6	Impulse Response in a magnetoionic Medium	39
3.7	The Sommerfeld Precursor	40
3.8	Saddle Points and Predominant Frequencies	42
3.9	Forbidden Bands	43
3.10	Whistlers	43
3.11	The Contribution from one Saddle Point	44
3.12	The Lines of Steepest Descent	45
3.13	The Airy Phase	47
3.14	The Signal Velocity	49
3.15	The Main Signal	51
IV.	<i>Wave Admittance and Impedance</i>	53
4.1	Introduction	53
4.2	Wave Admittance in an Isotropic Medium	54
4.3	Homogeneous Isotropic Medium. The Characteristic Admittance	55
4.4	Relation to the Reflection Coefficient	56
4.5	Equivalent Height of Reflection	57
4.6	The Differential Equations for a Stratified Anisotropic Medium	59
4.7	Numerical Integration of the Equations	60
4.8	The Wave Admittance for an Anisotropic Medium	61
4.9	The Reflection Coefficient Matrix	63
4.10	The Characteristic Admittance of an Anisotropic Medium	64
4.11	Application to Guided Waves	65
V.	<i>Some Notes on the Phase Integral Method</i>	66
5.1	Introduction	66
5.2	Phase Memory and W.K.B. Solutions	67
5.3	Reflection	68
5.4	Discussion of the Phase Integral Formula	70
5.5	Wave-Guide Modes	71
5.6	Guided Waves in Troposphere	72
5.7	Diffraction of Radio Waves Round the Earth	74
	<i>References</i>	76
	<i>Index</i>	78
